1. The classification of goods traded between the Parties shall be in conformity with the HS and its amendments. Each Party shall ensure consistency in applying its laws and regulations on tariff classification of originating goods of the other Party.
2. Pursuant to paragraph 1, each Party shall ensure that the transposition of its schedule of tariff commitments, undertaken in order to implement Annex 2A (for India) or Annex 2B (for the UAE) in the nomenclature of the revised HS Code following periodic amendments to the HS Code, is carried out without impairing or diminishing the tariff commitments set out in its Schedule of Tariff Commitments in Annex 2A (for India) or Annex 2B (for the UAE).
3. The Parties shall publish such revisions in a timely manner.
4. Each Party shall, on the request of the other Party and within a reasonable period of time after receiving the request, provide the other Party a brief explanation in response to any concerns raised regarding the transposition of its Schedule of Tariff Commitments.

ARTICLE 2.6

Temporary Admission

1. Each Party shall, in accordance with its laws and regulations, grant temporary admission free of customs duties for the following goods imported from the other Party regardless of their origin:
 - (a) professional and scientific equipment and materials, including their spare parts, and goods for sports purposes, that are necessary for carrying out the business activity, trade, or profession of a person who qualifies for temporary entry pursuant to the laws of the importing Party;

- (b) goods intended for display or use at playgrounds, theatres, exhibitions, fairs or other similar events, including commercial samples, advertising materials including printed materials, films and recordings;
- (c) containers and pallets in use or to be used for refilling;
- (d) machinery and equipment for completion of projects or for conducting the experiments and tests relating to such projects, or for repair; and
- (e) goods entered for completion of processing.

2. A Party shall not impose any condition on the temporary admission of a good referred to in paragraph 1, other than to require that such good:

- (a) be accompanied by a security deposit in an amount no greater than the customs duty or charges that would otherwise be owed on importation, releasable on exportation of the good;
- (b) be exported on the departure of the person referred to in subparagraph 1(a) or within such period of time as is reasonably related to the purpose of temporary admission;
- (c) be capable of identification when exported;
- (d) not be sold or leased while in its territory;
- (e) not be imported in a quantity greater than is reasonable for its intended use; and
- (f) be otherwise admissible into the importing Party's territory under its laws.

3. If any condition that a Party imposes under paragraph 2 has not been fulfilled, that Party may apply the customs duty and any other charge that would normally be owed on importation of the good.

4. Each Party shall, at the request of the importer and for reasons deemed valid by its Customs Administration, extend the time limit for temporary admission beyond the period initially fixed.

5. Each Party shall relieve the importer of liability for failure to export a temporarily admitted good upon presentation of satisfactory proof to the Party's Customs Administration that the good has been destroyed within the original time limit for temporary admission or any lawful extension. A Party may condition relief of liability under this paragraph by requiring the importer to receive prior approval from the Customs Administration of the importing Party before the good can be so destroyed.

6. Each Party, through its Customs Administration, shall adopt and maintain procedures providing for the expeditious release of goods admitted under this Article. To the extent possible, these procedures shall provide that when such goods

accompany a national or resident of the other Party who is seeking temporary entry, the good shall be released simultaneously with the entry of that national or resident.

ARTICLE 2.7

Duty-Free Entry of Commercial Samples of Negligible Value and Printed Advertising Materials

1. Each Party shall, in accordance with its laws and regulations, grant duty-free entry to commercial samples of negligible value, and to printed advertising materials, imported from the territory of the other Party, regardless of their origin, but may require that:

- (a) such samples be imported solely for the solicitation of orders for goods, or the solicitation of orders for services provided from the territory, of the other Party or a non-Party; or
- (b) such advertising materials be imported in packets that each contain no more than one copy of each such material and that neither such materials nor packets form part of a larger consignment.

ARTICLE 2.8

Goods Returned or Re-Entered After Repair or Alteration

1. Neither Party may apply a customs duty to a good, regardless of its origin, that re-enters its territory within one (1) year after that good has been exported from its territory to the territory of the other Party for repair or alteration, regardless of whether such repair or alteration could be performed in its territory, except that a customs duty may be applied to the addition resulting from the repair or alteration that was performed in the territory of the other Party.

2. Neither Party may apply a customs duty to a good, regardless of its origin, imported temporarily from the territory of the other Party for repair or alteration, provided such good is exported from the territory of the importing Party within one (1) year of its entry.

3. For the purposes of this Article, “**repair**” or “**alteration**” means any operation or process undertaken on a good to remedy operational defects or material damage and entailing the re-establishment of the good to its original function, or to ensure its compliance with technical requirements for its use. Repair or alteration of a good includes restoring, renovating, cleaning, resterilising, maintenance, or other operation or process, regardless of a possible increase in the value of the good, that does not:

- (a) destroy a good’s essential characteristics or create a new or commercially different good;
- (b) transform an unfinished good into a finished good; or
- (c) changes the function of a good.

4. The Parties shall commence a review of this Article within two (2) years of the date of entry into force of this Agreement and, thereafter, every three (3) years, or as the Parties agree otherwise.

ARTICLE 2.9

Import and Export Restrictions

Article XI of the GATT 1994 and its interpretive notes are incorporated into and form part of this Agreement, *mutatis mutandis*.

ARTICLE 2.10

Import Licensing

1. Each Party shall ensure that all automatic and non-automatic import licensing procedures are implemented in a transparent and predictable manner, and applied in accordance with the Import Licensing Agreement. No Party shall adopt or maintain a measure that is inconsistent with the Import Licensing Agreement.

2. Promptly after entry into force of this Agreement, each Party shall notify the other Party of any existing import licensing procedures. The notification shall include the information specified in Article 5.2 of the Import Licensing Agreement. A Party shall be deemed to be in compliance with this paragraph if:

- (a) it has notified that procedure to the WTO Committee on Import Licensing provided in Article 4 of the Import Licensing Agreement together with the information specified in Article 5.2 of the Import Licensing Agreement; and
- (b) in the most recent annual submission due before the date of entry into force of this Agreement for the Party to the WTO Committee on Import Licensing, in response to the annual questionnaire on import licensing procedures as described in Article 7.3 of the Import Licensing Agreement, it has provided with respect to that procedure, the information requested in the questionnaire.

3. Thereafter, each Party shall notify the other Party of any new import licensing procedure and any modification it makes to its existing import licensing procedures, to the extent possible thirty (30) days before it takes effect. In no case shall a Party provide the notification later than sixty (60) days after the date of its publication. A notification provided under this Article shall include the information specified in Article 5 of the Import Licensing Agreement. A Party shall be deemed to be in compliance with this obligation if it notifies a new import licensing procedure or a modification to an existing import licensing procedure to the WTO Committee on Import Licensing in accordance with Articles 5.1, 5.2 or 5.3 of the Import Licensing Agreement.

4. Before applying any new or modified import licensing procedure, a Party shall publish the new procedure or modification on an official government website. To the extent possible, the Party shall do so at least twenty-one (21) days before the new procedure or modification takes effect.

5. The notification required under paragraphs 2 and 3 is without prejudice to whether the import licensing procedure is consistent with this Agreement.

6. No application shall be refused for minor documentation errors which do not alter the basic data contained therein. Minor documentation errors may include formatting errors (for instance, the width of a margin or the font used) and errors with spelling which are made without fraudulent intent or gross negligence.

7. A notification made under paragraph 3 shall state if, under any procedure that is a subject of the notification:

- (a) the terms of an import license for any product limit the permissible end users of the product; or
- (b) the Party imposes any of the following conditions on eligibility for obtaining a license to import any product
 - (i) membership in an industry association;
 - (ii) approval by an industry association of the request for an import license;
 - (iii) a history of importing the product, or similar products;
 - (iv) minimum importer or end use production capacity;
 - (v) minimum importer or end use registered capital; or
 - (vi) a contractual or other relationship between the importer and distributor in the Party's territory.

8. Each Party shall, to the extent possible, answer within sixty (60) days all reasonable enquiries from the other Party with regard to the criteria employed by its respective licensing authorities in granting or denying import licenses. The importing Party shall publish sufficient information for the other Party and traders to know the basis for granting or allocating import licences.

9. If a Party denies an import licence application with respect to a good of the other Party, it shall, on request of the applicant and within a reasonable period after receiving the request, provide the applicant with an explanation of the reason for the denial.

ARTICLE 2.11

2. The Parties reaffirm their commitments made in the WTO Ministerial Conference Decision on Export Competition adopted in Nairobi on 19 December 2015, including the elimination of scheduled export subsidy entitlements for agricultural goods.
3. The Parties share the objective of the multilateral elimination of export subsidies for agricultural goods and shall work together to prevent their reintroduction in any form.

ARTICLE 2.13

Transparency

Article X of the GATT 1994 is incorporated into and forms part of this Agreement, *mutatis mutandis*.

ARTICLE 2.14

Restrictions to Safeguard the Balance-of-Payments

1. The Parties shall endeavour to avoid the imposition of restrictive measures for balance-of-payments purposes.
2. Any such measures taken for trade in goods shall be in accordance with Article XII of the GATT 1994 and the Understanding on the Balance-of-Payments Provisions of the GATT 1994, the provisions of which are incorporated into and form part of this Agreement, *mutatis mutandis*.

ARTICLE 2.15

Administrative Fees and Formalities

1. Each Party shall ensure, in accordance with Article VIII:1 of the GATT 1994 and its interpretive notes and Article 6 of the WTO Agreement on Trade Facilitation, that all fees and charges of whatever character (other than import and export duties, charges equivalent to an internal tax or other internal charges applied consistently with Article III:2 of the GATT 1994, and anti-dumping and countervailing duties applied pursuant to its laws and regulations) imposed on, or in connection with, importation or exportation, are limited in amount to the approximate cost of services rendered to imports or exports and do not represent a direct or indirect protection for domestic goods or a taxation of imports for fiscal purposes.
2. Each Party shall promptly publish details and shall make such information available on the internet regarding the fees and charges it imposes in connection with importation or exportation and shall make such information available to the other Party, upon written request, in the English language.

ARTICLE 2.16

Non-Tariff Measures

1. Unless otherwise provided, neither Party shall adopt or maintain any non-tariff measure on the importation of any good of the other Party or on the exportation of any good destined for the territory of the other Party, except in accordance with its WTO rights and obligations or with this Agreement.
2. Each Party shall ensure the transparency of its non-tariff measures permitted under paragraph 1 and shall ensure that any such measures are not prepared, adopted or applied with the view to, or with the effect of, creating unnecessary obstacles to trade with the other Party. Any new measure or modification to an existing measure shall be duly notified to the other Party as soon as practicable, but, in any event, no later than the day the measure takes effect.
3. Each Party shall ensure that its laws, regulations, procedures and administrative rulings relating to non-tariff measures are promptly published, including on the internet where feasible, or otherwise made available in such a manner as to enable the other Party to become acquainted with them.
4. If a Party considers that a non-tariff measure of the other Party is an unnecessary obstacle to trade, that Party may nominate such a non-tariff measure for review by the Committee on Trade in Goods (CTG), established under this Agreement, by notifying the other Party no later than thirty (30) days before the date of the next scheduled meeting of the CTG. A nomination of a non-tariff measure for review shall include reasons for its nomination and, if possible, suggested solutions. The CTG shall immediately review the measure with a view to securing a mutually agreed solution to the matter. Review by the CTG is without prejudice to the Parties' rights under Chapter 15 (Dispute Settlement).

ARTICLE 2.17

State Trading Enterprises

Nothing in this Agreement shall be construed to prevent a Party from maintaining or establishing a state trading enterprise in accordance with Article XVII of the GATT 1994 and the Understanding on the Interpretation of Article XVII of the GATT 1994.

ARTICLE 2.18

Revision Clause

1. Upon request of a Party, the Parties shall consult to consider accelerating, or broadening the scope of the elimination of customs duties as set out in Annex 2A (Schedule of Specific Tariff Commitments of India) and Annex 2B (Schedule of Specific Tariff Commitments of the UAE). Further commitments between the Parties to accelerate the elimination of a customs duty on a good, or to include a good in Annex 2A (for India) and Annex 2B (for the UAE), shall supersede any duty rate or staging category determined pursuant to their respective Schedules of Tariff Commitments. These commitments shall enter into force on the date specified by the Parties following the exchange of notifications certifying that they have completed their internal legal procedures.

2. Nothing in this Agreement shall prohibit a Party from unilaterally accelerating, or broadening the scope of the elimination of customs duties set out in its Schedule of Tariff Commitments in Annex 2A (for India) or Annex 2B (for the UAE). Any such unilateral acceleration, or broadening of the scope of the elimination of customs duties will neither permanently supersede any duty rate or staging category determined pursuant to their respective Schedule nor will serve to waive that Party's right to impose at a later time the duty rate or staging category that is determined for that later time by their respective Schedule.

3. For greater certainty with respect to paragraph 2, a Party may:

- (a) raise a customs duty back to the level established in its respective Schedule of Tariff Commitments in Annex 2A (for India) or Annex 2B (for the UAE) following a unilateral reduction; or
- (b) maintain or increase a customs duty as authorised by the Dispute Settlement Body of the WTO.

ARTICLE 2.19

Exchange of Data

1. The Parties recognise the value of trade data in accurately analysing the implementation of this Agreement. The Parties shall cooperate with a view to conducting periodic exchanges of data relating to trade in goods between the Parties.

2. The Parties may engage in such periodic exchanges within the CTG for such purposes and for any other purposes in furtherance of the obligations described in this Chapter as the CTG may determine.

3. A Party shall give positive consideration to a request from the other Party for technical assistance for the purposes of the exchange of data under paragraph 1.

ARTICLE 2.20

Committee on Trade in Goods

1. The CTG is established under the Joint Committee.

2. The functions of the CTG shall include:

- (a) the monitoring and review of measures taken and implementation of commitments;
- (b) the exchange of information and review of developments;
- (c) the preparation of technical amendments, including HS updating, and otherwise assisting the Joint Committee;
- (d) any other matter referred to it by the Joint Committee; and
- (e) the preparation of recommendations and reports to the Joint Committee, as necessary.

3. The CTG shall establish such subcommittees as may be necessary under this Agreement, including on Customs Procedures and Trade Facilitation, Technical Barriers to Trade, Sanitary and Phytosanitary Measures, and Trade Remedies. All such subcommittees shall report to the CTG.
4. Each Party has the right to be represented in the CTG. The CTG shall act by consensus.
5. The CTG shall meet at least every two (2) years or more frequently as the Parties agree otherwise. The meetings of the CTG shall be chaired jointly by the UAE and India.
6. The Parties shall examine any difficulties that might arise in their goods trade and shall endeavour to seek appropriate solutions through dialogue and consultations.

1. **"SPS Agreement"** means the Agreement on the Application of Sanitary and Phytosanitary Measures, set out in Annex 1A of the GATT 1994.
2. The definitions under Annex A of the SPS Agreement shall apply.
3. Relevant definitions developed by Codex Alimentarius Commission (Codex), the World Organisation for Animal Health (OIE), and the International Plant Protection Convention (IPPC) shall apply.
4. In the event of any conflict between the definitions under the SPS Agreement and any of the other sources specified in paragraph 3, the definitions under the SPS Agreement shall prevail.
5. **"Competent authorities"** mean those authorities within each Party recognised by the national government as responsible for developing and administering the SPS measures within that Party.
6. An **"emergency measure"** means a sanitary or phytosanitary measure that is applied by a Party to products of the other Party to address an urgent problem of human, animal or plant life or health protection that arises or threatens to arise in the Party applying the measure.

ARTICLE 4.2

Objectives

1. The objectives of this Chapter are to:
 - (a) protect human, animal, or plant life or health in the territories of the Parties while facilitating trade between them;
 - (b) reinforce the SPS Agreement;
 - (c) strengthen communication, consultation, and cooperation between the Parties, and particularly between the Parties' competent authorities;
 - (d) ensure that sanitary or phytosanitary measures implemented by a Party do not create unjustified barriers to trade;
 - (e) enhance transparency in and understanding of the application of each Party's sanitary and phytosanitary measures; and

- (f) encourage the development and adoption of science-based international standards, guidelines, and recommendations, and promote their implementation by the Parties.

ARTICLE 4.3

Scope

This Chapter shall apply to all sanitary and phytosanitary measures of a Party that may, directly or indirectly, affect trade between the Parties.

ARTICLE 4.4

General Provision

1. The Parties affirm their rights and obligations with respect to each other under the SPS Agreement.
2. This Chapter is subject to Chapter 15 (Dispute Settlement) at the time of entry into force.

ARTICLE 4.5

Equivalence

1. Both Parties shall strengthen cooperation on equivalence in accordance with Article 4 of the SPS Agreement while taking into account relevant decisions of the WTO SPS Committee and international standards, guidelines and recommendations, in accordance with Annex A of the SPS Agreement, *mutatis mutandis*.
2. The importing Party shall recognise the equivalence of a sanitary and phytosanitary measure if the exporting Party objectively demonstrates to the importing Party that its measure achieves the same level of protection as the importing Party's measure or that its measure has the same effect in achieving the objective as the importing Party's measure.
3. In determining equivalence, the importing Party shall take into account existing knowledge, information and experience as well as the regulatory competence of the exporting Party.
4. A Party shall, upon request, enter into consultation with the aim of achieving bilateral recognition arrangements of equivalence of specified sanitary and phytosanitary measures. The recognition of equivalence may be with respect to a single measure, group of measures or on a systems-wide basis. For this purpose, reasonable access shall be given, upon request, to the importing Party for inspection, testing and other relevant procedures.
5. As part of the consultation for equivalence recognition, on request by the exporting Party, the importing Party shall explain and provide:
 - (a) the rationale and objective of its measures; and
 - (b) the specific risks its measures are intended to address.

6. The exporting Party shall provide necessary information for the importing Party to commence an equivalence assessment. Once the assessment commences, the importing Party shall without undue delay, upon request, explain the process and plan for making an equivalence determination.

7. The consideration by a Party of a request from the other Party for recognition of equivalence of its measures with regard to a specific product, or group of products, shall not be in itself a reason to disrupt or suspend ongoing imports from the Party of the product(s) in question.

8. When the importing Party recognises the equivalence of the exporting Party's specific sanitary and phytosanitary measure, group of measures or measures on a systems-wide basis, the importing Party shall communicate the decision in writing to the exporting Party and implement the measure within a reasonable period of time. The rationale shall be provided in writing by the importing Party in the event that the decision is negative.

9. The importing Party may withdraw or suspend equivalence on the basis of any amendment by one of the Parties of measures affecting equivalence, in accordance with the following provisions:

- (a) the exporting Party shall inform the importing Party of any proposal for amendment of its measures for which equivalence of measures is recognised and the likely effect of the proposed measures on the equivalence which has been recognised;
- (b) within sixty (60) working days or as mutually agreed by both Parties on receipt of this information, the importing Party shall inform the exporting Party whether or not equivalence would continue to be recognised on basis of the proposed measures;
- (c) the importing Party shall inform the exporting Party of any proposal for amendment of its measures on which recognition of equivalence has been based and the likely effect of the proposed measures on the equivalence which has been recognised; and
- (d) in case of non-recognition or withdrawal or suspension of equivalence, the importing Party shall indicate to the exporting Party the required conditions on which the process referred to in paragraphs 4 and 5 may be reinitiated, provided that the timelines of paragraph 6 shall be adhered to in any process for re-assessment of equivalence.

10. The withdrawal or suspension of equivalence rests solely with the importing Party acting in accordance with its administrative and legislative framework, which shall adhere to the international guidelines, standards and recommendations. The importing Party shall provide to the exporting Party, upon request, an explanation except confidential data for its determinations and decisions.

11. Compliance by an exported product that has been accepted as equivalent to sanitary and phytosanitary measures and standards of the importing Party shall not

remove the need for that product to comply with any other relevant mandatory requirements of the importing Party.

ARTICLE 4.6

Adaptation to Regional Conditions, Including Pest or Disease-Free Areas and Areas of Low Pest or Disease Prevalence

1. Both Parties recognise the concepts of regional conditions, including pest-or disease-free areas and areas of low pest or disease prevalence. Parties shall take into account the relevant decisions of the WTO SPS Committee and international standards, guidelines, and recommendations.
2. Both Parties may cooperate on the recognition of regional conditions with the objective of acquiring confidence in the procedures followed by each other for such recognition.
3. At the request of the exporting Party, the importing Party shall, without undue delay, explain its process and plan for making the determination of regional conditions.
4. When the importing Party has received a request for a determination of regional conditions from the exporting Party, and has determined that the information provided by the exporting Party is sufficient, it shall initiate the assessment within a reasonable period of time.
5. For this assessment, reasonable access shall be given, upon request, to the importing Party for inspection, testing and other relevant procedures.
6. On request of the exporting Party, the importing Party shall inform the exporting Party of the status of the assessment.
7. When the importing Party recognises specific regional conditions of an exporting Party, the importing Party shall communicate that decision to the exporting Party in writing and implement the measures within a reasonable period of time.
8. If the evaluation of the evidence provided by the exporting Party does not result in a decision by the importing Party to recognise the regional conditions, the importing Party shall provide the exporting Party the rationale for its decision in writing within a reasonable period of time.
9. Where a determination recognising regional conditions is made, the Parties are encouraged, where mutually agreed, to report the outcome to the WTO SPS Committee.

ARTICLE 4.7

Risk Analysis

1. The Parties shall strengthen their cooperation on risk analysis in accordance with the SPS Agreement while taking into account the relevant decisions of the WTO SPS Committee and international standards, guidelines, and recommendations.
2. When conducting a risk analysis, an importing Party shall:

- (a) ensure that the risk analysis is documented and that it provides the relevant exporting Party with an opportunity to comment, in a manner to be determined by the importing Party;
 - (b) consider risk management options that are not more trade restrictive than required¹ to achieve its appropriate level of sanitary or phytosanitary protection; and
 - (c) select a risk management option that is not more trade restrictive than required to achieve its appropriate level of sanitary or phytosanitary protection, taking into account technical and economic feasibility.
3. On request of an exporting Party, an importing Party shall inform the exporting Party of the progress of a specific risk analysis request, and of any delay that may occur during the process.
4. Without prejudice to the Parties' right to take emergency measures consistent with Article 4.9 (Emergency Measures), no Party shall stop the importation of a good of the other Party solely for the reason that the importing Party is undertaking a review of a sanitary or phytosanitary measure, if the importing Party permitted importation of the good of the other Party at the time of the initiation of the review.

ARTICLE 4.8

Audit, Certification and Import Checks

1. The Parties shall ensure that their import procedures comply with Annex C of the SPS Agreement including audit, certification, and import checks.
2. When conducting an audit,² the Parties agree that:
- (a) audits shall be systems based and designed to check the effectiveness of the regulatory controls of the competent authorities of the exporting Party. Audits may include an assessment of the competent authorities' control programme, including, where appropriate, reviews of the inspection and audit programmes, and on-site inspections of facilities, without prejudice to the rights of a Party to seek market access on the basis of individual inspection and audits;
 - (b) prior to commencement of an audit, both Parties shall discuss and agree, *inter alia*:
 - (i) the rationale for and the objectives and scope of the audit;

¹ For the purposes of subparagraphs (b) and (c), a risk management option is not more trade restrictive than required unless there is another option reasonably available, taking into account technical and economic feasibility, that achieves the appropriate level of sanitary or phytosanitary protection and is significantly less restrictive to trade.

² For greater certainty, without affecting the implementation of this Article, nothing in this Article prevents a Party from adopting or maintaining halal requirements for food and food products in accordance with Islamic law.

- (ii) the criteria or requirements against which the exporting Party will be assessed; and
 - (iii) the itinerary and procedures for conducting the audit;
 - (c) the auditing Party shall provide the audited Party the opportunity to comment on the finding of an audit and take any such comments into account before making its conclusions and taking any action;
 - (d) any decisions or actions taken by the auditing Party as a result of the audit shall be supported by objective evidence and data which can be verified, taking into account the knowledge, relevant experience, and confidence that the auditing Party has with the audited Party. Any such objective evidence and data shall be provided to the audited Party on request;
 - (e) any costs incurred by the auditing Party shall be borne by the auditing Party, unless the Parties agree otherwise; and
 - (f) the auditing Party and the audited Party shall each ensure that procedures are in place to prevent the disclosure of confidential information acquired during the auditing process.
3. When conducting certification, the Parties agree that:
- (a) where certification is required for trade in a product, the importing Party shall ensure such certification is applied, in meeting its sanitary or phytosanitary objectives, only to the extent necessary to protect human, animal and plant life or health;
 - (b) in applying certification requirements, each Party shall take into account relevant decisions from the WTO SPS Committee and international standards, guidelines, and recommendations;
 - (c) the Parties shall promote the implementation of electronic certification and other technologies to facilitate trade; and
 - (d) without prejudice to each Party's right to import controls, the importing Party shall accept certificates issued by the competent authorities in compliance with the regulatory requirements of the importing Party.
4. When conducting import checks, the Parties agree that:
- (a) both Parties shall ensure that their control, inspection and approval procedures are in accordance with Annex C of the SPS Agreement;
 - (b) the import checks applied to imported animals, animal products, plants and plant products traded between the Parties shall be based on the risk associated with such importations. The import checks shall be carried out in a manner that is appropriate to the risk involved, least trade-restrictive and without undue delay; and

- (c) the Parties reaffirm Article V of the GATT 1994 and agree that there shall be freedom of transit for goods in transit. The inspection of goods may be carried out in the event of identifiable sanitary or phytosanitary risks.

ARTICLE 4.9

Emergency Measures

1. If a Party adopts an emergency measure that is necessary for the protection of human, animal or plant life or health and that may have an effect on trade, the Party shall promptly notify, in writing in the English language, the other Party of that measure through the relevant contact point referred to in Article 4.13 (Contact Points and Competent Authorities). The importing Party shall take into consideration any information provided by the other Party in response to the notification.
2. If a Party adopts an emergency measure, it shall review measure within six (6) months or any other such time as agreed by the Parties and make available the results of the review to the other Party on request. If the emergency measure is maintained after the review, because the reason for its adoption remains, the Party should review the measure periodically.

ARTICLE 4.10

Transparency

1. The Parties recognise the value of transparency in the adoption and application of sanitary and phytosanitary measures and the importance of sharing information about such measures on an ongoing basis.
2. Each Party shall notify proposed measures or changes to sanitary or phytosanitary measures that may have a significant effect on the trade of other Parties through the online WTO Sanitary and Phytosanitary Measures Notification Submission System, the contact points designated under Article 4.13 (Contact Points and Competent Authorities), or through already established communication channels of the Parties.
3. In implementing this Article, both Parties shall take into account relevant decisions of the WTO SPS Committee and international standards, guidelines, and recommendations.
4. A Party, upon request from the other Party, shall provide relevant information and clarification regarding any sanitary or phytosanitary measure to the requesting Party, within a reasonable period of time, including:
 - (a) the sanitary and phytosanitary requirements that apply for the import of specific products;
 - (b) the status of the Party's application; and
 - (c) the procedures for the authorisation of specific products.
5. Unless urgent problems of human, animal or plant life or health protection arise or threaten to arise, or the measure is of a trade-facilitating nature, the Party

proposing a sanitary or phytosanitary measure shall normally allow at least sixty (60) days for the other Party to provide written comments on the proposed measure, after it makes a notification under paragraph 3. If feasible and appropriate, the Party proposing the measure should allow more than sixty (60) days. The Party shall consider any reasonable request from the other Party to extend the comment period. On request of the other Party, the Party proposing the measure shall respond to the written comments of the other Party in an appropriate manner.

6. A Party that proposes to adopt a sanitary or phytosanitary measure shall discuss with the other Party, on request, and if appropriate and feasible, any scientific or trade concerns that the other Party may raise regarding the proposed measure and the availability of alternative, less trade-restrictive approaches for achieving the objective of the measure.

7. The Parties encourage the publication, by electronic means in an official journal or on a website, the proposed sanitary or phytosanitary measure notified under paragraph 3, and the legal basis for the measure.

8. Each Party shall notify the other Party of final sanitary or phytosanitary measures through the WTO SPS notification submission system. Each Party shall ensure that the text or the notice of a final sanitary or phytosanitary measure specifies the date on which the measure takes effect and the legal basis for the measure. Each Party shall publish, preferably by electronic means, notices of final sanitary or phytosanitary measures in an official journal or website.

9. An exporting Party shall notify the importing Party through the contact points referred to in Article 4.13 (Contact Points and Competent Authorities) in a timely and appropriate manner:

- (a) if it has identified significant sanitary or phytosanitary risk related to the export of a good from its territory going to the importing Party;
- (b) of urgent situations where a change in animal or plant health status in the territory of the exporting Party may affect current trade;
- (c) of significant changes in the status of a regionalised pest or disease;
- (d) of new scientific findings of importance which affect the regulatory response with respect to food safety, pests or diseases; and
- (e) of significant changes in food safety, pest or disease management, control or eradication policies or practices that may affect current trade.

10. Each Party shall provide within a reasonable period of time, appropriate information to the other Party through the contact points established under Article 4.13 (Contact Points and Competent Authorities) or already established communication channels of the Parties, when:

- (a) there is significant or recurring sanitary or phytosanitary non-compliance associated with an exported consignment identified by the importing Party; and

- (b) a sanitary or phytosanitary measure adopted provisionally against or affecting the export of another Party is considered necessary to protect human, animal or plant life or health within the importing Party.

11. A Party shall provide to the other Party, on request, all sanitary or phytosanitary measures related to the importation of a good into that Party's territory in the English language.

ARTICLE 4.11

Cooperation and Capacity Building

1. Both Parties shall explore opportunities for further cooperation between them, including capacity building, technical assistance, collaboration, and information exchange on sanitary and phytosanitary matters of mutual interest, consistent with the provisions of this Chapter.

2. In undertaking cooperative activities, both Parties shall endeavour to coordinate with bilateral, regional or multilateral work programmes with the objective of avoiding unnecessary duplications and eliminating unnecessary obstacles to trade between the Parties and maximising the use of resources.

3. If there is mutual interest and with the objective of establishing a common scientific foundation for each Party's regulatory approach, the competent authorities of the Parties are encouraged to:

- (a) share best practices; and
- (b) cooperate on joint scientific data collection.

ARTICLE 4.12

Technical Discussions

1. Where a Party considers that a sanitary or phytosanitary measure is affecting their trade with the other Party, it may, through the contact points or through other established communication channels, request a detailed explanation of the sanitary or phytosanitary measures including the scientific basis of the measure. The other Party shall respond promptly to any request for such explanation.

2. A Party shall notify the other Party of an emergency measure under this Chapter immediately after adopting its decision to implement the measure. If a Party requests technical consultation to address the emergency SPS measure, the technical consultations must be held within ten (10) days of the notification of the emergency SPS measure. The Parties shall consider any information provided through the technical consultations.

3. A Party may request to hold technical discussions with the other Party in an attempt to resolve any concerns on specific issues arising from the application of the sanitary and phytosanitary measure. The requested Party shall respond promptly to any reasonable request for such consultation.

4. Where a Party requests technical discussion, these shall take place as soon as practicable, unless the Parties agree otherwise.

5. The technical discussions may be conducted via teleconference, videoconference, or through any other means as the Parties mutually agree.

6. Such technical discussions are without prejudice to the rights and obligations of the Parties under Chapter 15 (Dispute Settlement).

ARTICLE 4.13

Contact Points and Competent Authorities

1. Upon entry into force of this Agreement, each Party shall:
 - (a) designate a contact point or contact points to facilitate communication on matters covered under this Chapter;
 - (b) inform the other Party of a contact point or contact points; and
 - (c) when more than one contact point is designated, specify a contact point that serves as the focal point to respond to enquiries by other Parties about the appropriate contact point with which to communicate.
2. A Party shall provide the other Party, through the contact point or contact points, a description of its competent authorities and their division of functions and responsibilities.
3. Both Parties shall notify each other of any changes to the contact points and significant changes in the structure, organisation and division of responsibility within its competent authorities.
4. Both Parties recognise the importance of the competent authorities in the implementation of this Chapter. Accordingly, the competent authorities of Parties may cooperate with each other on matters covered by this Chapter in a manner the Parties mutually agree.

ARTICLE 4.14

Subcommittee on SPS

1. The Parties hereby establish a Subcommittee on Sanitary and Phytosanitary Measures (SPS Subcommittee) under the CTG, consisting of government representatives of each Party's competent authorities.
2. The SPS Subcommittee shall meet within one (1) year from the date of entry into force of this Agreement, and thereafter at such venues and time-period as the Parties mutually determine.
3. The functions of the SPS Subcommittee shall be to:
 - (a) consider any sanitary and phytosanitary matters of mutual interest;
 - (b) coordinate cooperation pursuant to Article 4.11 (Cooperation and Capacity Building) and identify mutually agreed priority sectors for enhanced cooperation;

- (c) monitor the implementation and operation of this Chapter;
- (d) encourage the Parties to share experience regarding implementation of this Chapter; and
- (e) facilitate technical discussions.

4. Meetings may occur in person, by teleconference, by video conference, or through any other means as determined by the Parties.

CHAPTER 5

TECHNICAL BARRIERS TO TRADE

ARTICLE 5.1

Definitions

1. For the purposes of this Chapter, the terms and their definitions set out in Annex 1 of the TBT Agreement shall apply.
2. **"TBT Agreement"** means Agreement on Technical Barriers to Trade, set out in Annex 1A of the GATT 1994.

ARTICLE 5.2

Objectives

The objectives of this Chapter are to facilitate trade in goods among the Parties by:

- (a) ensuring that standards, technical regulations, and conformity assessment procedures do not create unnecessary obstacles to trade;
- (b) furthering cooperation pursuant to the TBT Agreement
- (c) promoting mutual understanding of each Party's standards, technical regulations, and conformity assessment procedures and enhancing transparency;
- (d) facilitating information exchange and cooperation among the Parties in the field of standards, technical regulations and conformity assessment procedures, including in the work of relevant international bodies; and
- (e) addressing the issues that may arise under this Chapter.

ARTICLE 5.3

Scope

1. This Chapter shall apply to the standards, technical regulations and conformity assessment procedures that may affect trade in goods between the Parties. The Chapter shall not apply to:
 - (a) sanitary and phytosanitary measures which are covered in Chapter 4 (Sanitary and Phytosanitary Measures) of this Agreement; and
 - (b) purchasing specifications prepared by governmental bodies for production or consumption requirements of governmental bodies.
2. Without prejudice to paragraph 1, this Chapter shall apply to the preparation, adoption, and application of all technical regulations, standards, and conformity assessment procedures by: central government bodies; and, where explicitly provided for in this Agreement, government bodies at the level directly below that of the central level of government that may affect trade in goods between the Parties.

3. All references in this Chapter to technical regulations, standards, and conformity assessment procedures shall be construed to include any amendments¹ to them and any addition to the rules or the product coverage of those technical regulations, standards, and procedures, except amendments and additions of an insignificant nature.

4. Each Party shall take such reasonable measures that are within its authority to encourage observance by local government bodies, as the case may be, on the level directly below that of the central level of government within its territory which are responsible for the preparation, adoption and application of technical regulations, standards and conformity assessment procedures, of Articles 5.5 (Standards) and 5.7 (Conformity Assessment Procedures).

5. For greater certainty, nothing in this Chapter shall prevent a Party from preparing, adopting, applying, or maintaining technical regulations, standards, or conformity assessment procedures in accordance with its rights and obligations under this Agreement, the TBT Agreement, and any other relevant international agreement.

ARTICLE 5.4 **Incorporation of the TBT Agreement**

1. The Parties affirm their rights and obligations under the TBT Agreement, and the following provisions of the TBT Agreement are incorporated into and form part of this Agreement, *mutatis mutandis*:

- (a) Article 2;
- (b) Article 3;
- (c) Article 4.1;
- (d) Article 5;
- (e) Article 6.1, 6.3; and
- (f) Annex 3, except paragraph A.

2. In the event of any inconsistency between the provisions of the TBT Agreement incorporated under this Article and other provisions of this Chapter, the latter shall prevail.

3. This Chapter is subject to Chapter 15 (Dispute Settlement) at the entry into force of this Agreement.

4. No Party shall have recourse to dispute settlement under Chapter 15 (Dispute Settlement) for a dispute that exclusively alleges a violation of the provisions of the TBT Agreement incorporated under this paragraph.

¹ "Any amendment" includes the elimination of a technical regulation.

ARTICLE 5.5

Standards

1. The Parties recognise the important role that international standards, guides, and recommendations can play in harmonising technical regulations, conformity assessment procedures, and national standards, and in reducing unnecessary barriers to trade.
2. To determine whether there is an international standard, guide, or recommendation within the meaning of Articles 2 and 5 and Annex 3 of the TBT Agreement, each Party shall apply the Decision of the Committee on Principles for the Development of International Standards, Guides and Recommendations with relation to Articles 2, 5 and Annex 3 of the Agreement (G/TBT/9, 13 November 2000, Annex 4), and subsequent relevant decisions and recommendations in this regard, adopted by the WTO Committee on Technical Barriers to Trade (WTO TBT Committee) in order to recognise a standard as an international standard.
3. Each Party shall ensure that its standardising body or bodies, while formulating national standards, shall ensure that such standards are not prepared, adopted or applied with a view to, or with the effect of, creating unnecessary obstacles to international trade.
4. Where modifications to the contents or structure of the relevant international standards were necessary in developing a Party's national standards, that Party shall, on request of the other Party, encourage its standardising body or bodies to provide information about the differences in the contents and structure, and the reason for those differences. Any fees charged for this service shall, apart from the real cost of delivery, be the same for foreign and domestic persons.
5. The Parties shall cooperate with each other to ensure that international standards, guides, and recommendations that are likely to become a basis for technical regulations and conformity assessment procedures do not create unnecessary obstacles to international trade.
6. Each Party shall encourage the standardising body or bodies in its territory to cooperate with the standardising body or bodies of the other Party including:
 - (a) exchange of information on standards;
 - (b) exchange of information relating to standard setting procedures; and
 - (c) cooperation in the work of international standardising bodies in areas of mutual interest.
7. The Parties shall, where appropriate, strengthen coordination and communication with each other in the context of discussion on international standards and related issues in other international fora, such as the WTO TBT Committee.

ARTICLE 5.6

Technical Regulations

1. Each Party shall prepare, adopt and apply its technical regulations in accordance with Article 2 of the TBT Agreement and ensure adherence to Article 3 of the TBT Agreement.
2. Each Party shall use relevant international standards to the extent provided in paragraph 4 of Article 2 of the TBT Agreement, as a basis for its technical regulations. Where a Party does not use such international standards, or their relevant parts, as a basis for its technical regulations and these may have an effect on trade of the other Party, it shall, upon request of the other Party, explain the reasons therefor. The explanation shall make every effort to address why the standard has been judged inappropriate or ineffective for the objective pursued. Where the Party considers that the technical explanation provided is not satisfactory, both Parties shall enter into technical discussions that will take place as expeditiously as possible to arrive at a mutually satisfactory understanding.
3. In implementing Article 2.2 of the TBT Agreement, each Party shall consider available alternatives in order to ensure that any proposed technical regulations to be adopted are not more trade-restrictive than necessary to fulfil a legitimate objective, taking account of the risk non-fulfilment would create.
4. Each Party shall give positive consideration to accepting as equivalent, technical regulations of the other Party, even if these regulations differ from its own, provided it is satisfied that these regulations adequately fulfil the objectives of its own regulations.
5. In addition to Article 2.7 of the TBT Agreement, a Party shall, on request of the other Party,² provide the reasons why it has not accepted, or cannot accept, a technical regulation of that Party as equivalent to its own. The Party to which the request is made should provide its response within a reasonable period of time.
6. Each Party shall uniformly and consistently apply its technical regulations that are prepared and adopted by its central government bodies to its whole territory. For greater certainty, nothing in this paragraph shall be construed to prevent local government bodies from preparing, adopting and applying additional technical regulations in a manner consistent with the provisions of the TBT Agreement.
7. Except where urgent problems of safety, health, environmental protection or national security arise or threaten to arise, Parties shall allow a reasonable interval³ between the publication of technical regulations and their entry into force in order to provide sufficient time for producers in exporting Parties to adapt their products or methods of production to the requirements of importing Parties.

² The Party's request should identify with precision the respective technical regulations it considers to be equivalent and any data or evidence that supports its position.

³ "**Reasonable interval**" means normally a period of not less than six (6) months, except when this would be ineffective in fulfilling the legitimate objectives pursued by the technical regulation or the conformity assessment procedure.

8. At the request of a Party that has an interest in developing a technical regulation similar to a technical regulation of the other Party, such other Party shall endeavour to provide, to the extent practicable, relevant information, including studies or documents, except for confidential information, on which it has relied in its development.

9. Consistent with the obligations of the TBT Agreement, incorporated by Article 5.4 (Incorporation of the TBT Agreement), each Party shall ensure that its technical regulations concerning labels:

- (a) accord treatment no less favourable than that accorded to like goods of national origin; and
- (b) do not create unnecessary obstacles to trade between the Parties.

ARTICLE 5.7

Conformity Assessment Procedures

1. In cases where a positive assurance is required that products conform with technical regulations or standards, and relevant international standards, guides or recommendations issued by international standardising bodies exist or their completion is imminent, Parties shall ensure that central government bodies use them, or the relevant parts of them, as a basis for their conformity assessment procedures, except where, as duly explained upon request, such international standards, guides, or recommendations or relevant parts are inappropriate for the Parties concerned, for, *inter alia*, such reasons as: national security requirements; the prevention of deceptive practices; protection of human health or safety, animal or plant life or health, or the environment; fundamental climatic or other geographical factors; fundamental technological or infrastructural problems.

2. Procedures for assessment of conformity by central government bodies of each Party shall be in accordance with Article 5 of the TBT Agreement.

3. Each Party shall ensure, whenever possible, that results of the conformity assessment procedures in the other Party are accepted, even when those procedures differ from its own, provided it is satisfied that those procedures offer an assurance of conformity with applicable technical regulations or standards equivalent to its own procedures.

4. A Party shall, upon request of the other Party, explain its reasons for not accepting the results of a conformity assessment procedure conducted in the other Party. Each Party recognises that, a broad range of mechanisms exists to facilitate the acceptance of the results of conformity assessment procedures conducted in the other Party. Such mechanisms may include:

- (a) mutual recognition agreements for the results of conformity assessment procedures conducted by bodies in the Parties;
- (b) cooperative (voluntary) arrangements between accreditation bodies or those between conformity assessment bodies in the Parties;

- (c) use of accreditation to qualify conformity assessment bodies, including through relevant multilateral agreements or arrangements to recognise the accreditation granted by other Parties;
- (d) designation of conformity assessment bodies in the other Party;
- (e) unilateral recognition by a Party, of results of conformity assessment procedures conducted in the other Party; and
- (f) manufacturer's or supplier's declaration of conformity.

5. Upon reasonable request, the Parties shall exchange information and/or share experiences on the mechanisms referred to in paragraph 4 above, with a view to facilitating the acceptance of the results of conformity assessment procedures.

6. Each Party shall, if it considers appropriate, permit participation of conformity assessment bodies in the other Party, in its conformity assessment procedures under conditions no less favourable than those accorded to conformity assessment bodies in the Party.

7. Where a Party permits participation of its conformity assessment bodies and does not permit participation of conformity assessment bodies in the other Party, in its conformity assessment procedures, it shall, upon written request of that Party, explain the reason for its refusal in writing.

8. The Parties recognise the important role that relevant regional or international organisations can play in cooperation in the area of conformity assessment. In this regard, each Party shall take into consideration the participation status or membership in such organisations of relevant bodies in the Parties in facilitating this cooperation.

9. The Parties agree to encourage cooperation between their relevant conformity assessment bodies in working closer with a view to facilitating the acceptance of conformity assessment results between Parties.

ARTICLE 5.8

Cooperation

1. The Parties shall encourage cooperation between their respective organisations responsible for standardisation, conformity assessment, accreditation, and metrology, with a view to facilitate trade.

2. Each Party shall, upon request of the other Party, give positive consideration to proposals for cooperation on matters of mutual interest on standards, technical regulations, and conformity assessment procedures.

3. Such cooperation, which shall be on terms and conditions the Parties mutually determine, may include:

- (a) advice or technical assistance/capacity building relating to the development and application of standards, technical regulations and conformity assessment procedures;

- (b) cooperation between conformity assessment bodies, both governmental and non-governmental, in the Parties on matters of mutual interest;
- (c) cooperation in areas of mutual interest in the work of relevant regional and international bodies relating to the development and application of standards and conformity assessment procedures, such as enhancing participation in the frameworks for mutual recognition developed by relevant regional and international bodies;
- (d) enhancing cooperation in the development and improvement of standards, technical regulations, and conformity assessment procedures;
- (e) strengthening communication and coordination in the WTO TBT Committee and other relevant international or regional fora;

 - (ii) the MFN applied rate of duty on the good in effect on the day immediately preceding the date this Agreement enters into force.

2. The Parties agree that neither tariff rate quotas nor quantitative restrictions are permissible forms of bilateral safeguard measures.

3. The Parties agree that the bilateral safeguard measure will be permanent for the duration of this Agreement. Nonetheless, upon a request of either Party, the CTG may, not less than five (5) years after the date on which the elimination or reduction of the customs duty on all the goods is completed, discuss and review the implementation and operation of the bilateral safeguard measure.

Notification and Consultation:

4. A Party shall notify the other Party in writing or by electronic communication:

- (a) within seven (7) days of initiation of an investigation described in paragraph 8,
- (b) immediately upon making a finding of serious injury or threat thereof caused by increased imports; and
- (c) immediately upon application of provisional or a definitive bilateral safeguard measure or extending the measure.

5. In making the notification referred to in subparagraphs 4(b), and 4(c) the Party proposing to apply a safeguard measure shall provide the other Party with all pertinent information, which shall include evidence of serious injury or threat thereof

caused by the increased imports, precise description of the good involved and the proposed measure and expected duration.

6. A Party shall make a notification to the other Party upon making a finding of serious injury or threat thereof caused by increased imports. Consultations shall be initiated immediately after the measure is taken.

7. A Party proposing to apply a definitive safeguard measure shall provide adequate opportunity for prior consultations with the other Party as far in advance, of taking any such measure, with a view to reviewing the information arising from the investigation, exchanging views on the measure and reaching an agreement on the compensation set out in paragraph 21. The Parties shall in such consultations, review, *inter alia*, the information provided under paragraph 4, to determine:

- (a) compliance with this Article;
- (b) whether any proposed measure should be taken; and
- (c) the appropriateness of the proposed measure, including consideration of alternative measures.

Conditions and Limitations:

8. A Party shall apply a safeguard measure only following an investigation by the Party's competent authorities in accordance with Articles 3 and 4.2(c) of the Safeguards Agreement, and to this end, Articles 3 and 4.2(c) of the Safeguards Agreement are incorporated into and form part of this Agreement, *mutatis mutandis*.

9. In the investigation described in paragraph 8, the Party shall comply with the requirements of Article 4.2(a) of the Safeguards Agreement, and to this end, Article 4.2(a) of the Safeguards Agreement is incorporated into and form part of this Agreement, *mutatis mutandis*.

10. Each Party shall ensure that its competent authorities complete any such investigation within eight (8) months of its date of initiation which may be extended up to one (1) year by the competent authority.

11. Neither Party may apply a bilateral safeguard measure:

- (a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment; or
- (b) for a period exceeding two (2) years, except that the period may be extended by up to two (2) years if the competent authorities of the importing Party determine, in conformity with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a bilateral safeguard measure, including the period of

initial application and any extension thereof, shall not exceed four (4) years.

12. No bilateral safeguard measure shall be applied to the import of an originating good for a period of one (1) year from the date of commencement of tariff reduction or tariff elimination for that originating good provided for under this Agreement.

13. When a Party terminates a bilateral safeguard measure, the rate of customs duty for the originating good subject to that bilateral safeguard measure shall be the rate that, according to that Party's Schedule of Tariff Commitments in Annex 2A (for India) or Annex 2B (for the UAE), would have been in effect but for that bilateral safeguard measure.

14. No bilateral safeguard measure shall be applied again to the import of a product that has been previously subject to such measure for a period of time equal to the period during which the previous measure was applied or one (1) year since the expiry of such measure, whichever is longer.

15. Notwithstanding the provisions of paragraph 15, a safeguard measure with a duration of one hundred and eighty (180) days or less may be applied again to the import of a product if:

(a) at least one (1) year has elapsed since the date of introduction of a safeguard measure on the import of that product; and

(b) such a safeguard measure has not been applied on the same product more than twice in the four (4) year period immediately preceding the date of introduction of the measure.

16. Where the expected duration of the bilateral safeguard measures is over one (1) year, the Party applying the bilateral safeguard measure shall progressively liberalise it at regular intervals during its period of application.

Provisional Measures:

17. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a bilateral safeguard measure on a provisional basis pursuant to a preliminary determination by its competent authorities that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports have caused serious injury, or threat thereof, to the domestic industry.

18. If a Party's competent authorities make a preliminary determination, the Party shall make such determination available to interested parties, and shall provide interested parties at least fifteen (15) days to comment and submit their arguments with respect to such determinations.

19. The duration of any provisional measure shall not exceed two hundred (200) days, during which time the Party shall comply with the requirements of paragraphs 5, 6, 8 and 9.

20. The Party shall promptly refund any tariff increases if the investigation described in paragraph 6 does not result in a finding that the requirements of paragraph 1 are met. The duration of any provisional measure shall be counted as part of the period described in paragraph 11(b).

Compensation:

21. No later than thirty (30) days after it applies a bilateral safeguard measure, a Party shall afford an opportunity for the other Party to consult regarding appropriate trade liberalising compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the bilateral safeguard measure. The applying Party shall provide such compensation as the Parties mutually agree.

22. If the Parties are unable to agree on compensation within thirty (30) days in the consultations, the Party against whose originating good the measure is applied may suspend the application of concessions with respect to originating goods of the applying Party that have trade effects substantially equivalent to the bilateral safeguard measure. The Party exercising the right of suspension may suspend the application of concessions only for the minimum period necessary to achieve the substantially equivalent effects.

23. A Party against whose good the bilateral safeguard measure is applied shall notify the Party applying the bilateral safeguard measure in writing at least thirty (30) days before it suspends concessions in accordance with paragraph 22.

24. The right to take action to suspend the application of concessions referred to in the second sentence of paragraph 22 shall not be exercised for:

- (a) The first two (2) years that the measure is in effect; and
- (b) The first three (3) years during which the bilateral safeguard measure is in effect, where it has been extended beyond two (2) years, provided that the measure has been taken as a result of an absolute increase in imports and that such measure conforms to the provisions of this Section.

25. The applying Party's obligation to provide compensation under paragraph 21 and the other Party's right to suspend concessions under paragraph 22 shall cease on the termination of the bilateral safeguard measure.

ARTICLE 7.4
Global Safeguard Measures

1. Each Party retains its rights and obligations under Article XIX of the GATT 1994 and the Safeguards Agreement. This Agreement does not confer any additional rights or obligations on the Parties with regard to actions taken under Article XIX of the GATT 1994 and the Safeguards Agreement, except that a Party taking a global safeguard measure may exclude imports of an originating good of the other Party if such imports are not a cause of serious injury or threat thereof.

2. Neither Party shall apply, with respect to the same good, at the same time:

- (a) a bilateral safeguard measure as provided in Article 7.3 (Bilateral Safeguard Measures); and
- (b) a measure under Article XIX of the GATT 1994 and the Safeguards Agreement

ARTICLE 7.5
Subcommittee on Trade Remedies

 - (b) subsidies or grants except to the extent provided in Article 8.15 (Subsidies) on subsidies;
 - (c) services provided in the exercise of governmental authority;
 - (d) measures affecting air traffic rights or measures affecting services directly related to the exercise of air traffic rights, other than measures affecting:²

 - (iii) computer reservation system services;
 - (iv) rental services of aircraft with crew; or
 - (v) air transport management services.
3. This Chapter shall not apply to measures affecting natural persons seeking access to the employment market of a Party, nor shall it apply to measures pertaining to citizenship, permanent residence or employment on a permanent basis.

² Notwithstanding subparagraphs (iv) and (v), this Chapter shall apply to measures affecting rental services of aircraft with crew and air transport management services only for a Party that opts to make commitments in relation to such services in accordance with Article 8.7 (Schedule of Specific Commitments).

4. The rights and obligations of the Parties in respect of Financial Services shall be governed by the Annex on Financial Services of the GATS, which are hereby incorporated into and made part of this Agreement.

5. The provisions of this Chapter shall be read with Annex 8C on Telecommunications Services and Annex 8D on Movement of Natural Persons.

ARTICLE 8.3

Market Access

1. With respect to market access through the modes of supply defined under "Trade in Services" in Article 8.1 (Definitions), each Party shall accord services and service suppliers of the other Party treatment no less favourable than that provided for under the terms, limitations and conditions agreed and specified in its Schedule of specific commitments.³

2. In sectors where market access commitments are undertaken, the measures which a Party shall not maintain or adopt either on the basis of a regional subdivision or on the basis of its entire territory, unless otherwise specified in its Schedule of specific commitments, are defined as:

- (a) limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test;
- (b) limitations on the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

- (d) limitations on the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test;
- (e) measures which restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service; and

³ If a Party undertakes a market-access commitment in relation to the supply of a service through the "cross-border" mode of supply referred to in the definition of "trade in services" in Article 8.1 (Definitions), and if the cross-border movement of capital is an essential part of the service itself, that Party is thereby committed to allow such movement of capital. If a Party undertakes a market-access commitment in relation to the supply of a service through the "commercial presence" mode of supply referred to in the definition of "trade in services" in Article 8.1 (Definitions), it is thereby committed to allow related transfers of capital into its territory.

⁴ Subparagraph 2(c) of Article 8.3 (Market Access) does not cover measures of a Party which limit inputs for the supply of services.

- (f) limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment.

3. Each Party shall endeavour to minimise requirements for a service supplier of the other Party to establish or maintain a representative office or any form of juridical person or to be resident in its territory, as a condition for the cross-border supply of a service.

ARTICLE 8.4

National Treatment

1. In the sectors inscribed in its Schedule of specific commitments, and subject to any conditions and qualifications set out therein, each Party shall accord to services and service suppliers of the other Party, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers.⁵

2. A Party may meet the requirement of paragraph 1 by according to services and service suppliers of the other Party, either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of a Party compared to like services or service suppliers of the other Party.

ARTICLE 8.5

Additional Commitments

The Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Articles 8.3 (Market Access) or 8.4 (National Treatment), including those regarding qualifications, standards or licensing matters. Such commitments shall be inscribed in a Party's Schedule of specific commitments.

ARTICLE 8.6

Most Favoured Nation Treatment

If, after the date of entry into force of this Agreement, a Party enters into any agreement on trade in services with a non-Party, it shall give consideration to a request by the other Party for the incorporation herein of treatment no less favourable than that provided under the aforesaid agreement. Any such incorporation should maintain the overall balance of commitments undertaken by each Party under this Agreement.

⁵ Specific commitments assumed under this Article shall not be construed to require either Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

ARTICLE 8.7

Schedule of Specific Commitments

1. Each Party shall set out, in a Schedule, the specific commitments it undertakes under Articles 8.3 (Market Access), 8.4 (National Treatment) and 8.5 (Additional Commitments). With respect to sectors where such commitments are undertaken, each Schedule of specific commitments shall specify:

- (a) terms, limitations and conditions on market access;
- (b) conditions and qualifications on national treatment;
- (c) undertakings relating to additional commitments;
- (d) where appropriate the time frame for implementation of such commitments; and
- (e) the date of entry into force of such commitments.

2. Measures inconsistent with both Articles 8.3 (Market Access) and 8.4 (National Treatment) shall be inscribed in the column relating to Article 8.3 (Market Access). In this case, the inscription will be considered to provide a condition or qualification to Article 8.4 (National Treatment) as well.

3. The Parties' Schedules of Specific Commitments shall be annexed to this Chapter as Annex 8A (for India) and Annex 8B (for the UAE) and shall form an integral part of this Agreement.

ARTICLE 8.8

Modification of Schedules

1. A Party may modify or withdraw any commitment in its Schedule, (referred to in this Article as the "modifying Party"), at any time after three (3) years have elapsed from the date on which that commitment entered into force, in accordance with the provisions of this Article. It shall notify the other Party of its intent to modify or withdraw a commitment no later than three months before the intended date of implementation of the modification or withdrawal.

2. At the request of the other Party, the modifying Party shall enter into negotiations with a view to reaching agreement on any necessary compensatory adjustment within six (6) months. In such negotiations and agreement, the Parties shall endeavour to maintain a general level of mutually advantageous commitments not less favourable to trade than that provided for in the Schedules of specific commitments prior to such negotiations. The Joint Committee shall be kept informed of the outcome of the negotiations.

3. If agreement is not reached between any affected Party and the modifying Party before the end of the period provided for negotiations, the affected Party may invoke the process in Chapter 15 (Dispute Settlement).

4. If an affected Party does not refer the matter to dispute settlement within sixty (60) days from the expiration of the period referred to in paragraph 3, the modifying Party shall be free to implement the proposed modification or withdrawal.

5. The modifying Party may not modify or withdraw its commitment until it has made compensatory adjustments in conformity with the findings of the arbitration panel established pursuant to Article 15.8 (Establishment of a Panel – Dispute Settlement).

6. If the modifying Party implements its proposed modification or withdrawal and does not comply with the findings of the arbitration panel established pursuant to Article 15.8 (Establishment of a Panel – Dispute Settlement), the affected Party may modify or withdraw substantially equivalent benefits in conformity with those findings.

ARTICLE 8.9

Review

1. The Parties shall endeavour to review this Chapter and specifically their Schedules of Specific Commitments at least once every two (2) years at the request of either Party, with a view to facilitating the reduction or elimination of substantially all remaining discrimination between the Parties with regard to trade in services covered in this Chapter over a period of time. In this process, there shall be due respect for the national policy objectives.

2. Any review pursuant to paragraph 1 shall be in conformity with Article V of the GATS.

ARTICLE 8.10

Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2. Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier of the other Party, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

3. The provisions of paragraph 2 shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

4. Where authorisation is required for the supply of a service on which a specific commitment has been made, the competent authorities of a Party shall,

- (a) within a reasonable period of time after the submission of an application considered complete under the laws and regulations of the Party, inform the applicant of the decision concerning the application;

- (b) in the case of an incomplete application, at the request of the applicant, identify all the additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;
- (c) at the request of the applicant, without undue delay provide, information concerning the status of the application; and
- (d) if an application is terminated or denied, to the maximum extent possible, inform the applicant in writing and without delay the reasons for such action. The applicant will have the possibility of resubmitting, at its discretion, a new application.

5. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards and licensing requirements, do not constitute unnecessary barriers to trade in services, the Parties shall jointly review the results of the negotiations on disciplines on these measures, pursuant to Article VI.4 of the GATS, with a view to their incorporation into this Chapter. The Parties note that such disciplines aim to ensure that such requirements are, *inter alia*:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
- (b) not more burdensome than necessary to ensure the quality of the service;
- (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

6. Pending the incorporation of disciplines pursuant to paragraph 5, for sectors where a Party has undertaken specific commitments and subject to any terms, limitations, conditions or qualifications set out therein, a Party shall not apply licensing and qualification requirements and procedures and technical standards that nullify or impair such specific commitments in a manner which:

- (a) does not comply with the criteria outlined in subparagraphs 5(a), 5(b), or 5(c); and
- (b) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.

7. In determining whether a Party is in conformity with the obligation under paragraph 6, account shall be taken of international standards of relevant international organisations⁶ applied by that Party.

8. In sectors where specific commitments regarding professional services are undertaken, each Party shall provide for adequate procedures to verify the

⁶ The term “**relevant international organisations**” refers to international bodies whose membership is open to the relevant bodies of both Parties.

competence of professionals of the other Party in accordance with provisions of paragraph 5.

ARTICLE 8.11

Recognition

1. For the purposes of the fulfilment of its standards or criteria for the authorisation, licensing or certification of services suppliers, each Party shall give due consideration to any requests by the other Party to recognise the education or experience obtained, requirements met, or licenses or certifications granted in the other Party. Such recognition which may be achieved through harmonisation or otherwise may be based upon an agreement or arrangement with the other Party, or otherwise be accorded autonomously.

2. Where a Party recognises, by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-party, that Party shall afford the other Party adequate opportunity to negotiate its accession to such an agreement or arrangement, whether existing or future, or to negotiate a comparable agreement or arrangement with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that the education or experience obtained, requirements met, or licenses or certifications granted in the territory of that other Party should also be recognised.

3. After the entry into force of this Agreement, the Parties shall encourage their relevant professional bodies in the service sectors of architecture, engineering, medical (doctors), dental, accounting and auditing, nursing, veterinary and company secretaries, to negotiate with the aim of concluding any such agreements or arrangements providing mutual recognition of the education or experience obtained, qualification requirements and procedures and licensing requirements and procedures, within a reasonable period of time. The Parties shall report periodically to the Joint Committee on progress and on impediments experienced.

4. In respect of regulated service sectors, other than those mentioned in paragraph 3, upon a request being made in writing by a Party to the other Party in such sector, the Parties shall encourage their respective professional bodies to negotiate, in that service sector, agreements for mutual recognition of education, or experience obtained, qualifications requirements and procedures, and licensing requirements and procedures in that service sector, with a view to the achievement of early outcomes. The Parties shall report periodically to the Joint Committee on progress and on impediments experienced.

5. The Parties agree that they shall not be responsible in any way for the settlement of disputes arising out of, or under the agreements or arrangements for mutual recognition concluded by their respective professional, standard-setting or regulatory bodies under the provisions of this Article and that the provisions of the Chapter 15 (Dispute Settlement) shall not apply to disputes arising out of, or under, the provisions of such agreements or arrangements.

6. The Parties agree to encourage, where possible, the relevant bodies in their respective territories to:

- (a) enhance cooperation on skill development and mutual recognition of qualifications;
- (b) organise bilateral discussions on particular skill sets and standards as per the requirements by each Party; and
- (c) pursue mutually acceptable standards and criteria for licensing and certification with respect to service sectors of mutual importance to the Parties.

ARTICLE 8.12

Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's specific commitments.
2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's Schedule of specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.
3. If a Party has reason to believe that a monopoly supplier of a service of the other Party is acting in a manner inconsistent with paragraphs 1 or 2, it may request the other Party, that is the Party establishing, maintaining or authorising such supplier, to provide specific information concerning the relevant operations.
4. The provisions of this Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect:
 - (a) authorises or establishes a small number of service suppliers; and
 - (b) substantially prevents competition among those suppliers in its territory.

ARTICLE 8.13

Business Practices

1. The Parties recognise that certain business practices of service suppliers, other than those falling under Article 8.12 (Monopolies and Exclusive Service Suppliers), may restrain competition and thereby restrict trade in services.
2. A Party shall, at the request of the other Party (the "Requesting Party"), enter into consultations with a view to eliminating practices referred to in paragraph 1. The Party addressed (the "Requested Party") shall accord full and sympathetic consideration to such a request and shall cooperate through the supply of publicly available non-confidential information of relevance to the matter in question. The Requested Party shall also provide other information available to the Requesting

Party, subject to its domestic laws and to the conclusion of satisfactory agreement concerning the safeguarding of its confidentiality by the Requesting Party.

ARTICLE 8.14

Safeguard Measures

1. Each Party shall review the treatment of emergency safeguard measures taking into account the results of negotiations pursuant to Article X of the GATS.
2. In the event a Party is considering initiating an emergency safeguard investigation pursuant to the results of the above referenced negotiations, a Party shall request consultations with the other Party.

ARTICLE 8.15

Subsidies

Each Party shall review the treatment of subsidies related to trade in services taking into account the development of the multilateral disciplines pursuant to paragraph 1 of Article XV of the GATS.

ARTICLE 8.16

Payments and Transfers

1. Except under the circumstances envisaged in Article 8.17 (Restrictions to Safeguard the Balance of Payments), a Party shall not apply restrictions on international transfers and payments for current transactions relating to its specific commitments.
2. Nothing in this Chapter shall affect the rights and obligations of the Parties as members of the International Monetary Fund (IMF) under the Articles of Agreement of the Fund, including the use of exchange actions which are in conformity with the Articles of Agreement, provided that a Party shall not impose restrictions on any capital transactions inconsistently with its specific commitments regarding such transactions, except under Article 8.17 (Restrictions to Safeguard the Balance of Payments) or at the request of the IMF.

ARTICLE 8.17

Restrictions to Safeguard the Balance of Payments

1. In the event of serious balance of payments and external financial difficulties or threat thereof, a Party may adopt or maintain restrictions on trade in services in respect of which it has undertaken specific commitments, including on payments or transfers for transactions relating to such commitments. It is recognised that particular pressures on the balance-of-payments of a Party in the process of economic development may necessitate the use of restrictions to ensure, *inter alia*, the maintenance of a level of financial reserves adequate for the implementation of its programme of economic development.
2. The restrictions referred to in paragraph 1 shall:
 - (a) be applied in such a manner that the other Party is treated no less favourably than any country that is not a Party to this Agreement.

- (b) be consistent with the Articles of Agreement of the IMF;
- (c) avoid unnecessary damage to the commercial, economic and financial interests of the other Party;
- (d) not exceed those necessary to deal with the circumstances described in paragraph 1; and
- (e) be temporary and be phased out progressively as the situation specified in paragraph 1 improves.

3. In determining the incidence of such restrictions, the Parties may give priority to the supply of services which are more essential to their economic or development programmes. However, such restrictions shall not be adopted or maintained for the purpose of protecting a particular service sector.

4. Any restrictions adopted or maintained under paragraph 1, or any changes therein, shall be promptly notified to the other Party.

5. To the extent that it does not duplicate the process under WTO and IMF, the Party adopting any restrictions under paragraph 1 shall, upon request by the other Party, commence consultations with the other Party in order to review the restrictions adopted by it.

ARTICLE 8.18 Denial of Benefits

1. A Party may deny the benefits of this Chapter:

- (a) to the supply of a service, if it establishes that the service is supplied from or in the territory of a non-Party;
- (b) to a service supplier that is a juridical person, if it establishes that it is not a service supplier of the other Party.
- (c) in the case of the supply of a maritime transport service, if it establishes that the service is supplied:
 - (i) by a vessel registered under the laws of a non-Party, and
 - (ii) by a person which operates and/or uses the vessel in whole or in part but which is of a non-Party;

2. Subject to prior notification and consultation, a Party may also deny the benefits of this Chapter to the supply of a service from or in the territory of the other Party, if the Party establishes that the service is supplied by a service supplier that is owned or controlled by a person of a non-Party and the denying Party adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the service supplier.

ARTICLE 8.19
Movement of Natural Persons

1. The rights and obligations of the Parties in respect of the movement of natural persons of a Party supplying services shall be governed by the GATS Annex on Movement of Natural Persons Supplying Services, which is hereby incorporated into and form part of this Agreement.
2. Annex 8D (Movement of Natural Persons Supplying Services) sets out further rights and obligations regarding movement of natural persons of a Party supplying services.

1. Alphabets indicated against individual sectors or sub-sectors and numbers in brackets are references to the Services Sectoral Classification List (GATT Document MTN.GNS/W/120, dated 10 July 1991).
2. The reference to "CPC" against specific sectors is a reference to the Provisional Central Product Classification (Statistical Papers Series M No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991), except for:
 - (a) sectors where "CPC Ver. 1.1" is indicated, the reference is to the Central Product Classification (Statistical Papers Series M No. 77, Ver. 1.1, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 2002); and
 - (b) sectors where "CPC Ver. 2" is indicated, the reference is to the Central Product Classification (Statistical Papers Series M No. 77, Ver. 2, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 2008).
3. The alphabetical and numerical divisions are only indicative of the description of specific commitments, but shall not be construed as being a part of the specific commitments.
4. The use of "***" against individual CPC codes indicates that the specific commitment for that code does not extend to the total range of services covered under that code.

C. Telecommunication Services:

HORIZONTAL COMMITMENTS:

The commitments taken are based on the scheduling principles provided by the following WTO documents: "Notes for scheduling Basic Telecom Services Commitments" (S/GBT/W/2/Rev.1) and "Market Access Limitations on Spectrum Availability" (S/GBT/W/3).

This Schedule on basic telecommunication does not include any broadcasting services according to the UAE telecommunication and the Telecommunications and Digital Government Regulatory Authority (TDRA) regulatory framework on different issues including but not limited to the spectrum license.³

³ "Broadcasting services" is defined as a radio communication service in which the transmissions are intended for direct reception by the general public, including sound transmissions, television transmissions or other types of transmissions. In the Telecommunications Law of the UAE, broadcasting is not part of basic telecommunication services.

ARTICLE 10.3

Scope

Application of Chapter

1. This Chapter applies to any measure regarding covered procurement.
2. The provisions of this Chapter do not affect the rights and obligations provided for in Chapter 2 (Trade in Goods) and Chapter 8 (Trade in Services).
3. For the purposes of this Chapter, except when done with a view to commercial sale or resale or for use in the production or supply of goods or services for commercial sale or resale, covered procurement means government procurement:
 - (a) of a good, service or any combination thereof as specified in each Party's Schedule in Annex 10A (for India) or Annex 10B (for the UAE);
 - (b) by any contractual means, including: purchase; rental or lease, with or without an option to buy;

- (c) for which the value, as estimated in accordance with paragraphs 7 and 8, equals or exceeds the relevant threshold specified in a Party's Schedule under Annex 10A (for India) or Annex 10B (for the UAE), at the time of publication of a notice of intended procurement;
- (d) by a procuring entity; and
- (e) that is not otherwise excluded from coverage under this Agreement.

Activities Not Covered

4. Unless otherwise provided in a Party's Schedule under Annex 10A (for India) or Annex 10B (for the UAE), this Chapter does not apply to:

- (a) the acquisition or rental of land, existing buildings or other immovable property or the rights thereon;
- (b) non-contractual agreements or any form of assistance that a Party, including its procuring entities, provides, including cooperative agreements, grants, loans, equity infusions, guarantees, subsidies, fiscal incentives, and sponsorship arrangements;

 - (iii) conducted under the particular procedure or condition of an international agreement relating to the stationing of troops or relating to the joint implementation by the signatory countries of a project.

Schedules

5. Each Party shall specify the following information in its Schedule under Annex 10A (for India) or Annex 10B (for the UAE):

- (a) in Section A, the central government entities for which procurement is covered by this Chapter;

- (b) in Section B, the services, other than construction services, covered by this Chapter;
- (c) in Section C, the construction services covered by this Chapter;
- (d) in Section D, General Notes;
- (e) in Section E, Procurement Information.

Compliance

6. Each Party shall ensure that its procuring entities comply with this Chapter in conducting covered procurements. No procuring entity shall prepare or design a procurement, or otherwise structure or divide a procurement into separate procurements in any stage of the procurement, or use a particular method to estimate the value of a procurement, in order to avoid the obligations of this Chapter.

Valuation

7. In estimating the value of a procurement for the purposes of ascertaining whether it is a covered procurement, a procuring entity shall include the estimated maximum total value of the procurement over its entire duration, taking into account:

- (a) all forms of remuneration, including any premium, fee, commission, interest or other revenue stream that may be provided for under the contract such as taxes, duties, logistical support, financing cost, staff, remuneration rates;
- (b) the value of any option clause; and
- (c) any contract awarded at the same time or over a given period to one or more suppliers under the same procurement.

8. If the total estimated maximum value of a procurement over its entire duration is not known, the procurement shall be deemed a covered procurement, unless otherwise excluded under this Agreement.

ARTICLE 10.4

Exceptions

1. Nothing in this Chapter shall be construed to prevent any Party from taking any action or not disclosing any information which it considers necessary for the protection of its essential security interests relating to the procurement of arms, ammunition or war materials, or to procurement indispensable for national security or for national defence purposes.

2. For the purpose of this Chapter, Article XX of the GATT 1994 and its interpretative note shall apply *mutatis mutandis* to the procurement of goods, and Article XIV of the GATS including its footnotes shall apply *mutatis mutandis* to the procurement of services.

3. Additionally, subject to the requirement that the measure is not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between Parties where the same conditions prevail, or a disguised restriction on international trade between the Parties, nothing in this Chapter shall be construed to prevent a Party, including its procuring entities, from adopting or maintaining a measure relating to the good or service of a person with disabilities, of philanthropic or not-for-profit institutions, or of prison labour.

ARTICLE 10.5

General Principles

National Treatment and Non-Discrimination

1. With respect to any measure regarding covered procurement, unless otherwise specified in this Chapter, each Party, including its procuring entities, shall accord immediately and unconditionally to the goods and services of the other Party and to the suppliers of the other Party, treatment no less favourable than the treatment that the Party, including its procuring entities, accords to domestic goods, services, and suppliers.

2. With respect to a measure regarding covered procurement, no Party, including its procuring entities, shall:

- (a) treat a locally established supplier less favourably than another locally established supplier on the basis of degree of foreign affiliation to or ownership by a person of the other Party; or
- (b) discriminate against a locally established supplier on the basis that the good or service offered by that supplier for a particular procurement is a good or service of the other Party.

3. All purchase orders under contracts awarded for covered procurement shall be subject to paragraphs 1 and 2.

Procurement Methods

4. A procuring entity shall use an open tendering procedure for covered procurement unless Article 10.9 (Qualification of Suppliers) or Article 10.11 (Limited Tendering) applies.

Rules of Origin

5. For the purposes of covered procurement, a Party shall not apply rules of origin to goods or services imported from or supplied from the other Party that are different from the rules of origin the Party agreed to in Chapter 3 (Rules of Origin) of this Agreement. For those goods not incorporated in Chapter 3 (Rules of Origin), the relevant rules of origin in the laws and regulations of the Parties shall apply.

Measures Not Specific to Procurement

6. Paragraphs 1 and 2 shall not apply to customs duties and charges of any kind imposed on or in connection with importation, the method of levying such duties and

charges, other import regulations or formalities, and measures affecting trade in services other than measures governing covered procurement.

Use of Electronic Means

7. The Parties shall endeavour, within the context of their commitment, to promote electronic commerce with the view to providing opportunities for e-procurement.

8. When conducting covered procurement by electronic means, a procuring entity shall:

- (a) ensure that the procurement is conducted using financial systems, information technology systems, and software, including those related to authentication and encryption of information, that are generally available and interoperable with other generally available financial systems, information technology systems, and software; and
- (b) establish and maintain mechanisms that ensure the integrity of information which provide opportunities to suppliers, including requests for participation in tenders.

ARTICLE 10.6

Publication of Procurement Information

1. Each Party shall promptly publish any measure of general application relating to covered procurement, and any change or addition to this information.

2. Each Party shall list in Section E of its Schedule under Annex 10A (for India) or Annex 10B (for the UAE) the paper or electronic means through which the Party publishes the information described in paragraph 1 and the notices required by Article 10.7 (Notices of Intended Procurement), paragraph 3 of Article 10.9 (Qualification of Suppliers), and paragraph 3 of Article 10.17 (Transparency and Post-Award Information).

3. Each Party shall, on request, provide an explanation in response to an inquiry relating to the information referred to in paragraph 1.

ARTICLE 10.7

Notices of Intended Procurement

1. For each covered procurement, except in the circumstances described in Article 10.11 (Limited Tendering), a procuring entity shall publish a notice of intended procurement through the appropriate paper or electronic means listed in Annex 10A (for India) or Annex 10B (for the UAE). The notices shall remain readily accessible to the public until at least the expiration of the time period for responding to the notice or the deadline for submission of the tender.

2. The notices shall, if accessible by electronic means, be provided free of charge for central government entities that are covered under Annex 10A (for India)

or Annex 10B (for the UAE), through a single point of access or through links in a single electronic portal.

3. Unless otherwise provided in this Chapter, each notice of intended procurement shall include the following information, unless that information is provided in the tender documentation that is made available free of charge to all interested suppliers at the same time as the notice of intended procurement:

- (a) the name and address of the procuring entity and other information necessary to contact the procuring entity and obtain all relevant documents relating to the procurement, and the cost and terms of payment to obtain the relevant documents, if any;
- (b) a description of the procurement, including, if appropriate, the nature and quantity of the goods or services to be procured and a description of any options, or the estimated quantity if the quantity is not known;
- (c) if applicable, the time-frame for delivery of goods or services or the duration of the contract;
- (d) if applicable, the address and any final date for the submission of requests for participation in the procurement;
- (e) the address and the final date for the submission of tenders;
- (f) the language or languages in which tenders or requests for participation may be submitted, if other than an official language of the Party of the procuring entity;
- (g) a list and a brief description of any conditions for participation of suppliers, that may include any related requirements for specific documents or certifications that suppliers must provide;
- (h) if, pursuant to Article 10.9 (Qualification of Suppliers), a procuring entity intends to select a limited number of qualified suppliers to be invited to tender, the criteria that will be used to select them and, if applicable, any limitation on the number of suppliers that will be permitted to tender;
- (i) if, pursuant to Article 10.10 (Electronic Reverse Auction), a procuring entity intends to use an electronic reverse auction, all conditions, including the date and time of the auction, rules for participation, valid bid increments, how to bid, and whether the auction is divided into successive phases; technical information needed to participate in the auction; the relevant information concerning the electronic equipment used; and the arrangements and technical specifications for connection; and
- (j) an indication that the procurement is covered by this Chapter.

4. For greater certainty, paragraph 3 does not preclude a Party from charging a fee for tender documentation if the notice of intended procurement includes all of the information set out in paragraph 3.

Notice of Planned Procurement

5. Each Party shall encourage its procuring entities to publish, as early as possible in the fiscal year, information regarding the entities' indicative procurement plans in the e-procurement portal.

ARTICLE 10.8 Conditions for Participation

1. A procuring entity shall limit any conditions for participation in a covered procurement to those conditions that ensure that a supplier has the legal and financial capacities and the commercial and technical abilities to fulfil the requirements of that procurement.

2. A procuring entity shall ensure that all conditions of participation and exclusion of suppliers are present in the tender documentation.

3. In establishing the conditions for participation, a procuring entity:

- (a) shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by a procuring entity of a given Party or that the supplier has prior work experience in the territory of that Party; and
- (b) may require relevant prior experience if essential to meet the requirements of the procurement.

4. In assessing whether a supplier satisfies the conditions for participation, a procuring entity shall:

- (a) evaluate the financial capacity and the commercial and technical abilities of a supplier;
- (b) base its evaluation solely on the conditions that the procuring entity has specified in advance in notices or tender documentation.

5. If there is supporting evidence, a Party, including its procuring entities, may exclude a supplier on grounds such as:

- (a) bankruptcy or insolvency;
- (b) false declarations;

- (c) significant or persistent deficiencies in the performance of any substantive requirement or obligation under a prior contract or contracts;
- (d) final judgments in respect of serious crimes or other serious offences;
- (e) professional misconduct or actions or omissions that adversely reflect on the commercial integrity of the supplier; or
- (f) failure to pay taxes.

ARTICLE 10.9

Qualification of Suppliers

Registration Systems and Qualification Procedures

1. A Party, including its procuring entities, may maintain a supplier registration system under which interested suppliers are required to register and provide certain information and documentation.
2. No Party, including its procuring entities, shall adopt or apply any registration system or qualification procedure with the purpose or the effect of creating unnecessary obstacles to the participation of suppliers of the other Party in its procurement.

Selective Tendering

3. If a procuring entity intends to use selective tendering, the procuring entity shall:
 - (a) publish a notice of intended procurement that invites qualified suppliers to submit a request for participation in a covered procurement; and
 - (b) include in the notice of intended procurement the information specified in subparagraphs 3(a), (b), (d), (g), (h), (i) and (j) of Article 10.7 (Notices of Intended Procurement).
4. The procuring entity shall:
 - (a) publish the notice sufficiently in advance of the procurement to allow interested suppliers to request participation in the procurement;
 - (b) provide, by the commencement of the time period for tendering, at least the information in subparagraphs 3(c), (e), and (f) of Article 10.7 (Notices of Intended Procurement) to the qualified suppliers that it notifies as specified in Article 10.15 (Time Periods); and
 - (c) allow all qualified suppliers to submit a tender, unless the procuring entity stated in the notice of intended procurement a limitation on the number of suppliers that will be permitted to tender and the criteria or justification for selecting the limited number of suppliers.

5. If the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 3, the procuring entity shall ensure that the tender documentation is made available at the same time to all the qualified suppliers selected in accordance with subparagraph 4(c).

Multi-Use Lists

6. A Party, including its procuring entities, may establish or maintain a multi-use list, provided that it publishes annually, or otherwise makes continuously available by electronic means, a notice inviting interested suppliers to apply for inclusion in the list. The notice shall include:

- (a) a description of the goods and services, or categories thereof, for which the list may be used;
- (b) the conditions for participation to be satisfied by suppliers for inclusion in the list and the methods that the procuring entity or other government agency will use to verify a supplier's satisfaction of those conditions;
- (c) the name and address of the procuring entity or other government agency and other information necessary to contact the procuring entity and to obtain all relevant documents relating to the list;
- (d) the period of validity of the list and the means for its renewal or termination or, if the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list;
- (e) the deadline for submission of applications for inclusion in the list, if applicable; and
- (f) an indication that the list may be used for procurement covered by this Chapter, unless that indication is publicly available through information published pursuant to paragraph 2 of Article 10.6 (Publication of Procurement Information).

7. A Party, including its procuring entities, that establishes or maintains a multi-use list, shall include in the list, within a reasonable period of time, all suppliers that satisfy the conditions for participation set out in the notice referred to in paragraph 6.

8. If a supplier that is not included in a multi-use list submits a request for participation in a procurement based on the multi-use list and submits all required documents, within the time period provided for in Article 10.15 (Time Periods), a procuring entity shall examine the request. The procuring entity shall not exclude the supplier from consideration in respect of the procurement unless the procuring entity is not able to complete the examination of the request within the time period allowed for the submission of tenders.

Information on Procuring Entity Decisions

9. A procuring entity or other entity of a Party shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion in a multi-use list of the decision with respect to the request or application.

10. If a procuring entity or other entity of a Party rejects a supplier's request for participation or application for inclusion in a multi-use list, ceases to recognise a supplier as qualified, or removes a supplier from a multi-use list, the entity shall promptly inform the supplier and on request of the supplier, promptly provide the supplier with a written explanation of the reason for its decision.

ARTICLE 10.10

Electronic Reverse Auction

1. A procuring entity may use electronic reverse auctions only under the following circumstances:

- (a) it is feasible for the procuring entity to formulate a detailed description of the subject matter of the procurement;
- (b) there is a competitive market of bidders anticipated to be qualified to participate in the electronic reverse auction, so that effective competition is ensured; and
- (c) the sole criterion to be used by the procuring entity in determining the successful bid is price.

2. If a procuring entity intends to use electronic reverse auctions, the procuring entity shall:

- (a) solicit bids through an invitation to the electronic reverse auction to be published or communicated; and
- (b) include in the invitation details relating to access to and registration for the auction, opening and closing of the auction, and norms for conduct of the auction.

ARTICLE 10.11

Limited Tendering

1. Subject to paragraph 2 and provided that it does not use this provision to protect domestic suppliers, or in a manner that discriminates against suppliers of the other Party, a procuring entity may use limited tendering.

2. If a procuring entity uses limited tendering, it may choose, according to the nature of the procurement, not to apply Article 10.7 (Notices of Intended Procurement), Article 10.8 (Conditions for Participation), Article 10.9 (Qualification of Suppliers), Article 10.12 (Negotiations), Article 10.13 (Technical Specifications), Article 10.14 (Tender Documentation), Article 10.15 (Time Periods), or Article 10.16 (Treatment of Tenders and Awarding of Contracts). A procuring entity may use limited tendering only under the following circumstances:

- (a) if, in response to a prior notice, invitation to participate, or invitation to tender:
 - (i) no tenders were submitted or no suppliers requested participation,
 - (ii) no tenders were submitted that conform to the essential requirements in the tender documentation,
 - (iii) no suppliers satisfied the conditions for participation, or
 - (iv) the tenders submitted were collusive,provided that the procuring entity does not substantially modify the essential requirements set out in the notices or tender documentation;
- (b) if the good or service can be supplied only by particular supplier(s) and no reasonable alternative or substitute good or service exists for any of the following reasons:
 - (i) the requirement is for a work of art,
 - (ii) the protection of patents, copyrights, or other exclusive rights, or
 - (iii) due to an absence of competition for technical reasons;
- (c) for additional deliveries by the original supplier or its authorised agents, of goods or services that were not included in the initial procurement if a change of supplier for such additional goods or services:
 - (i) cannot be made for technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services, or installations procured under the initial procurement, or due to conditions under original supplier warranties, and
 - (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;
- (d) if a procuring entity procures a prototype or a first good or service that is intended for limited trial or that is developed at its request in the course of, and for, a particular contract for research, experiment, study, or original development. Original development of a prototype or a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the prototype or the first good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs. Subsequent procurements of these newly developed goods or services, however, shall be subject to this Chapter;

- (e) if additional services that were not included in the initial contract conducted through methods other than limited tendering, but that were within the objectives of the original tender documentation have, due to unforeseeable circumstances, become necessary to complete the construction services described therein. However, the total value of contracts awarded for additional services may not exceed fifty percent (50%) of the value of the initial contract, except in rare situations;
- (f) for new services consisting of the repetition of similar services which conform to a basic project for which an initial contract was awarded and for which the entity has indicated in the notice of intended procurement concerning the initial service that limited tendering procedures might be used in awarding contracts for such new services;
- (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term, such as from unusual disposals, liquidation, bankruptcy, or receivership, but not for routine purchases from regular suppliers;
- (h) if a contract is awarded to the winner of a design contest, provided that:
 - (i) the contest has been organised in a manner that is consistent with this Chapter, and
 - (ii) the contest is judged by an independent jury with a view to award design contract to the winner; or
 - (iii) in so far as is necessary if, for reasons of urgency brought about by events unforeseeable by the procuring entity, the good or service could not be obtained in time by means of open or selective tendering.

3. For each contract awarded in accordance with paragraph 2, a procuring entity shall maintain a record, that includes the name of the procuring entity, the value and kind of good or service procured, and a statement that indicates the circumstances and conditions described in paragraph 2 that justified the use of limited tendering.

ARTICLE 10.12

Negotiations

1. A Party may provide for its procuring entities to conduct negotiations in the context of covered procurement if:

- (a) the procuring entity has indicated its intent to conduct negotiations in the notice of intended procurement required under Article 10.7 (Notices of Intended Procurement);
- (b) it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific technical evaluation criteria set out in the notice of intended procurement or tender documentation;
- (c) there is a need to clarify the terms and conditions;

- (d) all bids exceed the allocated prices provided for in the procuring entity's budget;
 - (e) there is a need for consultation with the supplier who submitted the tender with the lowest price.
2. A procuring entity shall ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation.

ARTICLE 10.13

Technical Specifications

1. A procuring entity shall not prepare, adopt, or apply any technical specification or prescribe any conformity assessment procedure with the purpose or effect of creating an unnecessary obstacle to trade between the Parties.
2. In prescribing the technical specifications for the good or service being procured, a procuring entity shall, where it deems appropriate:
- (a) set out the technical specifications in terms of performance and functional requirements, as far as possible, rather than design or descriptive characteristics; and
 - (b) base the technical specifications on international standards or on national technical regulations, national standards, or building codes, where applicable, in conformity with the Party's laws and regulations.
3. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark, trade name, brand or copyright, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in these cases, the procuring entity includes words such as "or equivalent" in the tender documentation.
4. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.
5. For greater certainty, this Article is not intended to preclude a procuring entity from preparing, adopting, or applying technical specifications to promote the conservation of natural resources or the protection of the environment.
6. For greater certainty, this Chapter is not intended to preclude a Party, or its procuring entities, from preparing, adopting, or applying technical specifications required to protect sensitive government information, including specifications that may affect or limit the storage, hosting, or processing of such information outside the territory of the Party.

ARTICLE 10.14

Tender Documentation

1. A procuring entity shall promptly make available or provide on request to any interested supplier tender documentation that includes all information necessary to permit the supplier to prepare and submit a responsive tender. Unless already provided in the notice of intended procurement, that tender documentation shall include a complete description of:

- (a) the procurement, including the nature, scope and, if known, the quantity of the good or service to be procured or, if the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical specifications, conformity certification, plans, drawings, or instructional materials;
- (b) any conditions for participation, including any financial guarantees, information, and documents that suppliers are required to submit;
- (c) all criteria to be considered in the awarding of the contract and the relative importance of those criteria;
- (d) if there will be a public opening of tenders, the date, time, and place for the opening;
- (e) any date for delivery of a good or supply of a service; and
- (f) any other terms or conditions relevant to the evaluation of tenders.

2. To the extent possible and subject to any applicable fees, an entity should make relevant tender documentation publicly available through electronic means or a computer-based telecommunications network openly accessible to all suppliers.

3. In establishing any date for the delivery of a good or the supply of a service being procured, a procuring entity shall take into account factors such as the complexity of the procurement.

4. A procuring entity shall promptly reply to any reasonable request for relevant information by an interested or participating supplier, provided that the information does not give that supplier an advantage over other suppliers.

Modifications

5. If, prior to the award of a contract, a procuring entity modifies the evaluation criteria or requirements set out in a notice of intended procurement or tender documentation provided to a participating supplier, or amends, or re-issues a notice or tender documentation which affects the terms contained therein, it shall publish or provide those modifications, or the amended or re-issued notice or tender documentation:

- (a) to all suppliers that are participating in the procurement at the time of the modification, amendment, or re-issuance, if those suppliers are known to the procuring entity issuing the tender notice for that specific

procurement, and in all other cases, in the same manner as the original information was made available; and

- (b) in adequate time to allow those suppliers to modify and re-submit their initial tender, if appropriate.

ARTICLE 10.15

Time Periods

1. A procuring entity shall, consistent with its own reasonable needs, provide sufficient time for a supplier to prepare and submit a request for participation and responsive tender, taking into account factors such as:

- (a) the nature and complexity of the procurement;
- (b) the extent of subcontracting anticipated; and
- (c) the time necessary for transmitting tenders by non-electronic means from foreign as well as domestic points where electronic means are not used.

Such time periods, including any extension of the time-periods, shall be the same for all interested or participating suppliers.

2. The time period for procurement shall be in accordance with each Party's laws and regulations.

ARTICLE 10.16

Treatment of Tenders and Awarding of Contracts

Treatment of Tenders

1. A procuring entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process and the confidentiality of tenders.

2. If the tender of a supplier is received after the time specified for receiving tenders, the procuring entity shall not penalise that supplier if the delay is due solely to the mishandling on the part of the procuring entity.

3. A procuring entity shall not discriminate between the participating suppliers in providing an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract.

Awarding of Contracts

4. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notice and tender documentation and submitted by a supplier who satisfies the conditions for participation.

5. Unless a procuring entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that the procuring entity has determined to be fully capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notice and tender documentation, submits:

- (a) the most advantageous tender; or
- (b) if price is the sole criterion, the lowest price.

6. If a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract. If the procuring entity determines that the bidder has substantially failed to demonstrate its capability to deliver the contract at the offered price, the procuring entity may reject the tender.

7. A procuring entity shall not use options, cancel a covered procurement, or modify or terminate awarded contracts in order to avoid the obligations of this Chapter.

ARTICLE 10.17

Transparency and Post-Award Information

Information Provided to Suppliers

1. A procuring entity shall promptly inform suppliers that have submitted a tender of the contract award decision. The procuring entity may do so in writing or through the prompt publication of a notice, provided that the notice includes the date of award. If a supplier has requested the information in writing, the procuring entity shall provide it in writing.

2. Subject to Article 10.18 (Disclosure of Information), a procuring entity should keep a provision in the tender document to enable an unsuccessful supplier to request an explanation for its rejection. The procuring entity shall disclose the reasons for rejection where an explanation is sought by the unsuccessful supplier.

Maintenance of Records

3. A procuring entity shall maintain the documentation and records relating to tendering procedures and contract awards for covered procurement, including the records provided for in paragraph 3 of Article 10.11 (Limited Tendering), for at least three (3) years after the award of a contract.

ARTICLE 10.18

Disclosure of Information

Provision of Information to Parties

1. On request of the other Party, a Party shall provide promptly information necessary to demonstrate whether a procurement was conducted fairly, impartially and in accordance with this Chapter, including, if applicable, information on the

characteristics and relative advantages of the successful tender, without disclosing confidential information. The Party that receives the information shall not disclose it to any supplier, except after consulting with, and obtaining the agreement of, the Party that provided the information.

Non-Disclosure of Information

2. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, shall not, except to the extent required by any law, rule, regulation, procedure or practice of a Party or with the written authorisation of the supplier that provided the information, disclose information that would prejudice legitimate commercial interests of a particular supplier or that might prejudice fair competition between suppliers.

3. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, authorities, and review bodies, to disclose confidential information if that disclosure:

- (a) would impede law enforcement;
- (b) might prejudice fair competition between suppliers;
- (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property;
- (d) would be contrary to the public interest; or
- (e) would affect the security interests of a Party;

4. Article 1.8 (Confidential Information) shall not apply to this Chapter.

ARTICLE 10.19

Ensuring Integrity in Procurement Practices

Each Party shall ensure that criminal or administrative measures exist to address corruption in its government procurement. These measures may include procedures to render ineligible for participation in the Party's procurements, either indefinitely or for a stated period of time, suppliers that the Party has determined to have engaged in fraudulent or other illegal actions in relation to government procurement in the Party's territory. Each Party shall also ensure that it has in place policies and procedures to eliminate to the extent possible or manage any potential conflict of interest on the part of those engaged in or having influence over a procurement.

ARTICLE 10.20

Domestic Review

1. Each Party shall maintain, establish, or designate at least one impartial administrative or judicial authority (review authority) that is independent of its procuring entities to review, in a non-discriminatory, timely, transparent, and effective manner, a challenge or complaint by a supplier that there has been:

- (a) a breach of this Chapter; or
- (b) a failure of a procuring entity to comply with the Party's measures implementing this Chapter, in cases where the supplier does not have a right to directly challenge a breach of this Chapter under the law of the Party;

arising in the context of a covered procurement, in which the supplier has, or had, an interest. The procedural rules for these complaints shall be in writing and made generally available.

2. In the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity conducting the procurement shall encourage, if appropriate, the procuring entity and the supplier to seek resolution of the complaint through consultations. The procuring entity shall accord impartial and timely consideration to the complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or to its right to seek corrective measures under the administrative or judicial review procedure.

3. If a body other than the review authority initially reviews a complaint, a Party shall ensure that the supplier may appeal the initial decision to the review authority that is independent of the procuring entity that is the subject of the complaint.

4. If the review authority has determined that there has been a breach or a failure as referred to in paragraph 1, a Party may limit compensation for the loss or damages suffered to either the costs reasonably incurred in the preparation of the tender or in bringing the complaint, or both.

5. Each Party shall ensure that, if the review authority is not a court, its review procedures are conducted in accordance with the following procedures:

- (a) a supplier shall be allowed sufficient time to prepare and submit a complaint in writing, which in no case shall be less than ten (10) days from the time when the basis of the complaint became known or reasonably should have become known to the supplier;
- (b) a procuring entity shall respond in writing to a supplier's complaint and provide all relevant documents to the review authority;
- (c) a supplier that initiates a complaint shall be provided an opportunity to reply to the procuring entity's response before the review authority takes a decision on the complaint; and
- (d) the review authority shall provide its decision on a supplier's complaint in a timely manner, in writing, with an explanation of the basis for the decision.

6. Each Party shall adopt or maintain procedures that provide for:

- (a) prompt interim measures, pending the resolution of a complaint, to preserve the supplier's opportunity to participate in the procurement and to ensure that the procuring entities of the Party comply with its measures implementing this Chapter; and
- (b) corrective action that may include compensation under paragraph 4.

The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether those measures should be applied. Just cause for not acting shall be provided in writing.

ARTICLE 10.21

Modifications and Rectifications of Annex

1. A Party shall notify any proposed modification or rectification (modification) to its Schedule under Annex 10A (for India) or Annex 10B (for the UAE) by circulating a notice in writing to the other Party through the Joint Committee. A Party shall provide compensatory adjustments for a change in coverage if necessary to maintain a level of coverage comparable to the coverage that existed prior to the modification. The Party may include the offer of compensatory adjustment in its notice.

2. A Party is not required to provide compensatory adjustments to the other Party if the proposed modification concerns one of the following:

- (a) a procuring entity over which the Party has effectively eliminated its control or influence in respect of covered procurement by that procuring entity; or
- (b) rectifications of a purely formal nature and minor modifications to its Schedule under Annex 10A (for India) or Annex 10B (for the UAE), such as:
 - (i) changes in the name of a procuring entity,
 - (ii) the merger of one or more procuring entities listed in its Schedule,
 - (iii) the separation of a procuring entity listed in its Schedule into two or more procuring entities that are all added to the procuring entities listed in the same Section of the Annex, or
 - (iv) changes in website references,

and the other Party does not object under paragraph 3 on the basis that the proposed modification does not concern subparagraph (a) or (b).

3. If a Party considers that its rights under this Chapter are affected by a proposed modification that is notified under paragraph 1, it shall notify the other Party of any objection to the proposed modification within forty-five (45) days of the date of circulation of the notice.

4. If a Party objects to a proposed modification, including a modification regarding a procuring entity on the basis that government control or influence over the entity's covered procurement has been effectively eliminated, that Party may request additional information, including information on the nature of any government control or influence, with a view to clarifying and reaching agreement on the proposed modification, including the procuring entity's continued coverage under this Chapter. The modifying Party and the objecting Party shall make every attempt to resolve the objection through consultations. If the Parties are unable to resolve the objection through consultations, the objecting Party may make an appropriate compensatory adjustment to its coverage to maintain a level of coverage comparable to that existing prior to the modification.¹

5. The Joint Committee shall modify Annex 10A (for India) or Annex 10B (for the UAE) to reflect any agreed modification.

ARTICLE 10.22

Facilitation of Participation by Micro, Small and Medium Enterprises (MSMEs)

1. The Parties recognise the important contribution that MSMEs can make to economic growth and employment and the importance of facilitating the participation of MSMEs in government procurement.

2. If a Party maintains a measure that provides preferential treatment for its MSMEs, the Party shall ensure that the measure, including the criteria for eligibility, is transparent.

3. To facilitate participation by MSMEs in covered procurement, each Party shall, to the extent possible and if appropriate:

- (a) provide comprehensive procurement-related information that includes a definition of MSMEs in a single electronic portal;
- (b) endeavour to make all tender documentation available free of charge;
- (c) conduct procurement by electronic means or through other new information and communication technologies; and
- (d) consider the size, design, and structure of the procurement, including the use of subcontracting by MSMEs.

4. Each Party reserves the right to apply a preferential procurement policy for its MSMEs in accordance with its laws and regulations.

ARTICLE 10.23

Financial Obligations

1. This Chapter does not entail any financial obligations to the Parties.

¹ For greater certainty, the objecting Party shall not make a compensatory adjustment for the modifications described in paragraph 2.

2. Each Party is responsible for any financial expenses incurred to fulfil its role under this Chapter.

ARTICLE 10.24
Language

To improve market access to each Party's procurement market, each Party shall, where possible, use the English language in its publication of materials or information pursuant to Article 10.6 (Publication of Procurement Information), including in the publications listed in Section E of each Party's Schedule under Annex 10A (for India) and Annex 10B (for the UAE).

ARTICLE 10.25
Dispute Settlement Mechanism

Chapter 15 (Dispute Settlement) shall not apply to this Chapter. The non-application of Chapter 15 (Dispute Settlement) shall be subject to review after three (3) years from the date of the entry into force of this Agreement. In the course of the review, Parties shall give due consideration to the application of Chapter 15 (Dispute Settlement) to either the whole or part(s) of this Chapter. Such a review shall be completed within four (4) years from the date of the entry into force of this Agreement.

INTELLECTUAL PROPERTY

Section A: General Provisions

ARTICLE 11.1

Definitions

For the purposes of this Chapter:

“geographical indication” means an indication that identifies a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation or other characteristic of the good is essentially attributable to its geographical origin;

“intellectual property” refers to all categories of intellectual property that are the subject of Sections 1 through 7 of Part II of the TRIPS Agreement; and

a **“national”** means, in respect of the relevant right, a person of a Party that would meet the criteria for eligibility for protection provided for in the TRIPS Agreement.

ARTICLE 11.2

Objectives

The protection and enforcement of intellectual property rights should contribute to the promotion of technological innovation and to the transfer and dissemination of technology, to the mutual advantage of producers and users of technological knowledge and in a manner conducive to social and economic welfare, and to a balance of rights and obligations.

ARTICLE 11.3

Principles

1. A Party may, in formulating or amending its laws and regulations, adopt measures necessary to protect public health and nutrition, and to promote the public interest in sectors of vital importance to their socio-economic and technological development, provided that such measures are consistent with the provisions of this Chapter.

2. The Parties recognise that appropriate measures, provided that they are consistent with the provisions of this Chapter, may be needed to prevent the abuse of intellectual property rights by right holders or the resort to practices which unreasonably restrain trade or adversely affect the international transfer of technology.

ARTICLE 11.4

Understandings in Respect of this Chapter

Having regard to the underlying public policy objectives of national systems, the Parties recognise the need to:

- (a) promote innovation and creativity;
- (b) facilitate the diffusion of information, knowledge, technology, culture and the arts; and
- (c) foster competition

through their respective intellectual property systems, while respecting the principles of transparency and due process, and taking into account the interests of right holders, users and the public.

ARTICLE 11.5 **Nature and Scope of Obligations**

Each Party shall give effect to the provisions of this Chapter. A Party may, but shall not be obliged to, provide more extensive protection for, or enforcement of, intellectual property rights under its law than is required by this Chapter, provided that such protection or enforcement does not contravene the provisions of this Chapter. Each Party shall be free to determine the appropriate method of implementing the provisions of this Chapter within its own legal system and practice.

ARTICLE 11.6 **TRIPS and Public Health**

1. The Parties:

- (a) reaffirm, in general, their right to utilise the flexibilities provided in the TRIPS Agreement;
- (b) reaffirm, in particular, the Doha Declaration on the TRIPS Agreement and Public Health adopted on 14 November 2001 by the Ministerial Conference of the WTO; and

- (c) the Parties recognise the need and importance of contributing towards international efforts to implement Article 31*bis* of the TRIPS Agreement and the Annex and Appendix to the Annex to the TRIPS Agreement.

 - (a) necessary to secure compliance with laws or regulations that are not inconsistent with this Chapter; and
 - (b) not applied in a manner that would constitute a disguised restriction on trade.
4. Paragraph 1 does not apply to procedures provided in multilateral agreements concluded under the auspices of the World Intellectual Property Organisation (WIPO) relating to the acquisition or maintenance of intellectual property rights.

ARTICLE 11.8

Most-Favoured-Nation Treatment

2. Each Party shall endeavour to, subject to its law, make available on the internet information that it makes public concerning applications for trademarks, geographical indications, patents, designs plant variety rights, and copyright.²

3. 3. This Chapter does not give rise to obligations in respect of acts that occurred before the date of entry into force of this Agreement for a Party.

ARTICLE 11.11

² For greater certainty, under paragraph 2, a Party may make available on the internet the entire dossier for the relevant application.

³ For greater certainty, under paragraph 3, a Party may make available on the internet the entire dossier for the relevant registered or granted intellectual property right.

ARTICLE 11.14

ARTICLE 11.15
Use of Identical or Similar Signs

Each Party shall provide that the owner of a registered trademark has the exclusive right to prevent third parties that do not have the owner's consent from using in the course of trade, identical or similar signs, for goods or services that are related to those goods or services in respect of which the owner's trademark is registered, where such use would result in a likelihood of confusion. In the case of the use of an identical sign for identical goods or services, a likelihood of confusion shall be presumed.

ARTICLE 11.16
Scope of Protection in Trademarks

Each Party shall ensure that any signs or any combination of signs capable of distinguishing the goods and services of one undertaking from those of other undertakings, shall be capable of constituting a trademark. Such signs, in particular words including personal names, letters, numerals, figurative elements, three-dimensional shapes and combinations of colours as well as any combination of such signs, shall be eligible for registration as trademarks. Where signs are not inherently capable of distinguishing the relevant goods or services, Parties may make registrability depend on distinctiveness acquired through use. No Party shall deny registration of a trademark solely on the grounds that the sign of which it is composed is a sound.⁵

ARTICLE 11.17

trademark,⁶ whether registered or not, provided that the use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the well-known trademark, and provided that the interests of the owner of the well-known trademark are likely to be damaged by such use.

3. Each Party recognises the importance of the Joint Recommendation Concerning Provisions on the Protection of Well-Known Marks as adopted by the Assembly of the Paris Union for the Protection of Industrial Property and the General Assembly of WIPO at the Thirty-Fourth Series of Meetings of the Assemblies of the Member States of WIPO, 20 to 29 September 1999.

4. Each Party shall provide for appropriate measures to refuse the application or cancel the registration and prohibit the use of a trademark that is identical or similar to a well-known trademark,⁷ for identical or similar goods or services, if the use of that trademark is likely to cause confusion with the prior well-known trademark. A Party may also provide such measures including in cases in which the subsequent trademark is likely to deceive public or cause confusion.

ARTICLE 15.21 **Reasonable Period of Time for Compliance**

1. If the Parties have not agreed on the length of the reasonable period of time, the complaining Party may, no later than thirty (30) days after the date of receipt of the notification made by the responding Party in accordance with paragraph 2 of Article 15.20 (Implementation of the Final Report), request, in writing, that the original panel determine the length of the reasonable period of time. 2. The original panel shall deliver its decision to the Parties within thirty (30) days of the date of submission of the request.

Such request shall be notified simultaneously to the responding Party.

4. 5. The panel shall deliver its decision to the Parties within sixty (60) days of the date of delivery of the request.

ARTICLE 15.23

Temporary Remedies in Case of Non-Compliance

1. If the responding Party:

- (a) fails to notify any measure taken to comply with the final report before the expiry of the reasonable period of time;
- (b) notifies the complaining Party in writing that it is not possible to comply with the final report within the reasonable period of time; or
- (c) the original panel finds that no measure taken to comply exists or that the measure taken to comply with the final report as notified by the responding Party is inconsistent with the covered provisions,

the responding Party shall, on request of the complaining Party, enter into consultations with a view to agreeing on a mutually satisfactory agreement or any necessary compensation.

2. If the Parties fail to reach a mutual satisfactory agreement or to agree on compensation within thirty (30) days after the date of receipt of the request made in accordance with paragraph 1, the complaining Party may deliver a written notification to the responding Party that it intends to suspend the application to that Party of benefits or other obligations under this Agreement. The notification shall specify the level of intended suspension of benefits or other obligations.

3. The complaining Party may begin the suspension of benefits or other obligations referred to in the preceding paragraph thirty (30) days after the date when it served notice on the responding Party, unless the responding Party made a request under paragraph 7.

4. The suspension of benefits or other obligations:

- (a) shall be at a level equivalent to the nullification or impairment that is caused by the failure of the responding Party to comply with the final report; and
- (b) shall be restricted to benefits accruing to the responding Party under this Agreement.

5. In considering what benefits to suspend in accordance with paragraph 2, the complaining Party shall apply the following principles:

- (a) the complaining Party should first seek to suspend benefits in the same sector or sectors as that affected by the measure that the panel has found to be inconsistent with this Agreement or have caused nullification or impairment;¹
- (b) the complaining Party may suspend benefit in other sectors, if it considers that it is not practicable or effective to suspend benefits or other obligations in the same sector.

6. The suspension of benefits or other obligations shall be temporary and shall only apply until the inconsistency of the measure with the relevant covered provisions which has been found in the final report has been removed, or until the Parties have reached a mutually agreed solution or agreed on any necessary compensation.

7. If the responding Party considers that the suspension of benefits does not comply with paragraphs 4 and 5, that Party may request in writing the original panel to examine the matter no later than fifteen (15) days after the date of receipt of the notification referred to in paragraph 2. That request shall be notified simultaneously to the complaining Party. The original panel shall notify the Parties of its decision on the matter no later than thirty (30) days of the receipt of the request from the responding Party. Benefits or other obligations shall not be suspended until the original panel has delivered its decision. The suspension of benefits or other obligations shall be consistent with this decision.

ARTICLE 15.24

Review of any Measure Taken to Comply After the Adoption of Temporary Remedies

1. Upon the notification by the responding Party to the complaining Party of the measure taken to comply with the final report:

- (a) in a situation where the right to suspend benefits or other obligations has been exercised by the complaining Party in accordance with Article 15.23 (Temporary Remedies in Case of Non-Compliance), the complaining Party shall terminate the suspension of benefits or other obligations no later than thirty (30) days after the date of receipt of the notification, with the exception of the cases referred to in paragraph 2; or
- (b) in a situation where necessary compensation has been agreed, the responding Party may terminate the application of such compensation no later than thirty (30) days after the date of receipt of the notification, with the exception of the cases referred to in paragraph 2.

2. If the Parties do not reach an agreement on whether the measure notified in accordance with paragraph 1 is consistent with the relevant covered provisions

¹ For the purposes of this paragraph, “**sector**” means: (i) with respect to goods, all goods; (ii) with respect to services, a principal sector as identified in the current “Services Sectoral Classification List” which identifies such sectors.

within thirty (30) days after the date of receipt of the notification, the complaining Party shall request, in writing, that the original panel examine the matter. That request shall be notified simultaneously to the responding Party. The decision of the panel shall be notified to the Parties no later than forty-five (45) days after the date of submission of the request. If the panel decides that the measure notified in accordance with paragraph 1 is consistent with the relevant covered provisions, the suspension of benefits or other obligations, or the application of the compensation, shall be terminated no later than fifteen (15) days after the date of the decision. If the panel determines that the notified measure achieves only partial compliance with the covered provisions, the level of suspension of benefits or other obligations, or of the compensation, shall be adapted in light of the decision of the panel.

ARTICLE 15.25

Suspension and Termination of Proceedings

If both Parties so request, the panel shall suspend its work for a period agreed by the Parties and not exceeding twelve (12) consecutive months. In the event of a suspension of the work of the panel, the relevant time periods under this Section shall be extended by the same period of time for which the work of the panel was suspended. The panel shall resume its work before the end of the suspension period at the written request of both Parties. If the work of the panel has been suspended for more than twelve (12) consecutive months, the authority of the panel shall lapse and the dispute settlement proceeding shall be terminated.

SECTION D: GENERAL PROVISIONS
